

The Court of Iris

1957

Court of Iris
11761 Ranchito St.
El Monte, California

SIAMURA

The Court of Iris

AFTER THREE YEARS OF DILIGENT SEARCH, WE LOCATED, LAST SEPTEMBER, A NEW HOME FOR OURSELVES AND THE COURT OF IRIS. A VERY GENTLY SLOPING PIECE OF LAND, A BIT LESS THAN FIFTEEN ACRES, WHICH LIES SOME SIX MILES SOUTH OF ELSINORE IN RIVERSIDE COUNTY. THE VERY FINE PRACTICALLY VIRGIN SOIL HAS GIVEN US BLOOM AND GROWTH IN THE ARIL AND ARILBRED IRIS BEYOND OUR FONDEST HOPES.

APPROXIMATELY THREE ACRES WILL BE DEVOTED TO AN EXTENSIVE DISPLAY GARDEN OF IRIS AND DAYLILIES WITH A COMPLEMENTARY PLANTING OF TREES, SHRUBS, PERENNIALS AND BULBS AS WELL AS A RESIDENCE, GREENHOUSES LATH HOUSES AND AVARIES.

WE CAN NOW, AT LONG LAST, DEVOTE OUR ENTIRE TIME AND EFFORTS TO THE CULTURE AND HYBRIDIZING WORK WHICH HAS BEEN OUR FIRST LOVE. WE WISH TO THANK EACH OF YOU PERSONALLY FOR THE PATRONAGE YOU HAVE SO GENEROUSLY GIVEN US DURING THE PAST FOUR YEARS AS WELL AS YOUR LETTERS OF ENCOURAGEMENT AND APPRECIATION. FOR THESE THINGS, WE ARE GRATEFUL AND HOPE THAT WE MAY CONTINUE TO MERIT YOUR CONFIDENCE AND TRUST IN OUR EFFORTS TO SUPPLY YOU WITH FINE EXAMPLES OF BEAUTIFUL PLANTS.

YOU WILL FIND A FEW NEW ADDITIONS TO THE CATALOG THIS YEAR AND WE HOPE TO INCREASE OUR OFFERINGS YEAR BY YEAR FOR WE HAVE AN EXTENSIVE COLLECTION OF BULBS AND PERENNIALS NOT USUALLY FOUND.

THE MAP ON THE OPPOSITE PAGE SHOWS THE LOCATION OF OUR NEW GARDENS WHERE WE HOPE TO HAVE THE OPPORTUNITY OF WELCOMING EACH OF YOU AT ANY TIME - IN OR OUT OF BLOOMING SEASON. YOU ARE MOST WELCOME.

WE ARE INTRODUCING TWO IRIS THIS YEAR. MANY VISITORS TO THE 1956 CONVENTION SAW MRS. PATTISON'S GOLDEN LANCER AND ADDED THEIR PRAISES WHICH HAS RESULTED IN MAKING THIS FINE PLANT AVAILABLE TO ALL. IT IS A VIGOROUS GROWER WITH STRONG STALKS AND IS WELL BRANCHED. THE LARGE, RATHER WAVY BLOOMS ARE OF A MEDIUM, CLEAR TONE OF SUNSHINE YELLOW WHICH GIVES EXCELLENT GARDEN VALUE WITHOUT BEING DOMINATING. THERE IS A WHITE PATCH IN THE FALLS WHICH LENDS CONTRAST AND DISTINCTION. IT IS A SEEDLING OF MISTY GOLD X probably SPUN GOLD. A FAIRLY LARGE STOCK ALLOWS THE LOWER THAN USUAL INTRODUCTORY PRICE OF \$15.00

* * * * *

OUR SECOND INTRODUCTION IS A WHITE IRIS - STANDARDS, FALLS, AND BEARD ARE OF A SCULPTURED WHITENESS OF GOOD SUBSTANCE. IT IS HUGE WITH SLIGHT FLUTINGS AND RUFFLINGS AND SHOULD BE OF GREAT VALUE TO THE BREEDER AS WELL AS THE ONE INTERESTED IN GARDEN OR EXHIBITION BLOOMS. IT WAS NAMED SWAN PRINCESS IN HONOR OF HER SERENE HIGHNESS, PRINCESS GRACE - A FRIEND OF SOME YEARS OF THE ORIGINATOR, RUBY BIRCH OF BEAUMONT, CALIFORNIA. SWAN PRINCESS IS A SEEDLING OF WHITE RUFFLES X PALOMINO \$25.00

THE COURT OF IRIS

WILLIAM D. HAWKINSON

ARIL SECTION

In this DIVISION will be found the most exotic and dramatic of the entire genus IRIS. Scientists tell us that this type is the most recently developed and therefore the most highly evolved in the floral kingdom. Their age is calculated at 25,000 years - scarcely comparable to a day in a Geological Calendar.

The Oncocylli and their hybrids are guaranteed traffic stoppers for they are so bizarre, so startling and beautiful that it takes little imagination to fancy Venus or Mars as their original homes. It is small wonder that the Master said "not even Solomon in all his glory was arrayed as one of these". These gorgeous creations are indigenous to the Holy Land and considerable surrounding territory and it was to them that He doubtless referred for but one true LILY is found native to this area. While this one lily - the Madonna - is lovely in its pristine whiteness - one would scarcely think of it as 'glorious'.

The word ARIL comes from the Greek and refers to the small collar which is found at one end of the seeds of both Oncocylli and Regelia species as well as the crosses from these two related groups. The hybrids of these two species are not only lovely but easier to grow than the pure species. They cross freely and generally produce plants which are more amenable to general culture than the pure species. New hybrids are appearing which are considerably less costly.

Under the Section ARILBREDS will be found the hybrids of these species crossed with the Tall Bearded varieties. These ARILBREDS are almost as easy to grow as the straight Tall Bearded but many color combinations and patterns are to be found which do not appear in the Tall Bearded varieties. May we urge you to give them a trial? We will be happy to give any information possible.

There is also a specialist group which sponsors the ARILS. Its Officers and Members are working on many cultural problems with the express purpose of pooling information and experience for the benefit of all. Dues for this group is \$3.00 per year and a letter to the ARIL SOCIETY at P. O. Box 86, WILDOMAR, CALIFORNIA will bring prompt information on joining this Organization.

We are offering four NEW INTRODUCTIONS this year from the Holland Firm of Van Tubergens. In the near future we hope to offer new hybrids of other men who are recognized throughout the world for their work with the ARILS.

Rhizomes are delivered after October 15th, packed in Vermiculite filled bags which give the greatest protection to the ARIL requirements. Cultural Notes will accompany all shipments.

Oncocyclus Species

ATROFUSCA VE 12"-18"

Typically this stunning Iris appears almost black. It, like practically ALL the species is quite variable and individual specimens may be red or brown or even bronzy - but all are beautiful and desirable. The signal patch is always darker than the fall and is usually black to the eye. It has abundant fertile pollen and has set to some Arilbrids for us. It is larger than atropurpurea and also produces the largest rhizomes of the true Oncos but is possibly a close relative.

\$5.00

ATROPURPUREA EE 6" - 10"

Again a quite variable species, both as to height and color and even the form will vary - some blooms will have flaring falls while others round edged in what has come to be considered an Onco trait. Coton also differs from light reds, through the darker shades - browns and purples to near blacks. It also crosses readily with other species and even some of the Tall Bearded varieties.

\$1.50

BARNUMAE var. MARIAE E 6" - 9"

Although this is perhaps the smallest of the Oncos we offer, its color is so outstanding that even a few blooms light up a whole group. Both standards and falls are rounded and there is little variation in the color which is between orchid and lilac-cordé with a glowing quality. The signal is deeper in tone. It is the pollen parent of Andromache and Artemis and should not be underestimated for it has set seed on both Arilbirds and Tall Bearded for us.

\$2.00

BISMARCKIANA E 12" - 18"

One of the largest and most spectacular of the Oncos tribe. In shape it is much like SUSIANA with perhaps even larger style arms and feathery crests. In the type (variations appear also in this species) the standards are off-white or light ivory with soft veins of pale blue (the veins of certain plants will go into purple) the large falls are between ivory and straw with heavy veins and dots of a deep purple-brown. Quite fertile both ways.

\$3.50

GATESI L to 36"

One of the largest and tallest of this section. The standards and falls are slightly elongated globes of an ivory tone with slight veining and dotting of pale lilac and a flush of chartreuse that gives a definite feeling of green. It is, as is well known, the Onco in back of all the huge MOHR family. This one is from an altitude which certainly indicates hardness. It is the latest to bloom and should therefore bud after late frost danger is over. As in almost all the species this produces quantities of fertile pollen and is a good seed setter.

\$5.00

Many of the above species are in short supply, while others are subject to the vagaries of importation. Orders for the Oncocycli, the Regelias, the Regelio-Cyclus hybrids and the Juncos and other species which appear on another page MUST be received NOT LATER THAN AUGUST 15, 1957. Money will be refunded for any item not available unless specific substitutions are given.

Most Aril rhizomes are small - it is their nature - but under proper conditions they will grow and most of them bloom. We send out the best stock available - unfortunately there is no way of foreseeing the performance of a particular rhizome. If you have not grown the Arils previously, we suggest that you begin with some of the less expensive and easier subjects. We will be happy to correspond with you.

HAYNEI E 15"

This is one of the larger blooming species which generally speaking are considered of greater value in breeding work. The standards are of light mulberry (again variable) The falls are red - black with a somewhat bronzy cast and a black signal patch. Fertile both ways.

\$6.00

LORPETI E 12" - 18"

Quotations by mail. We have located a fine supply of this handsome species but can not give a price as yet. It is a fabulous flower and sometimes grows to a diameter of 7" or more. The standards are silvery white with a flush of light lilac-pink and engraved with fine lines of lavender. The cream colored falls are covered with minute dots of pale red-purple which become so sparse at the margins as to almost fade out, while the concentration at the center becomes practically solid. This has always been rare and was scarcely available at all until the very recent past which accounts for the lack of hybrids.

SARIAE ML to 18"

This is quite similar to Lorpeti, but grows large leaves on a more vigorous plant. It is more delicate in its coloring and is considered one of the very finest of this entire group. This is of course new with us and while it is doubtless as fertile as the other species, we have no first hand information. We would suggest it only for those who have proven their conditions for the successful growing and blooming of the Oncos.

\$20.00

SARI VE - ML 9" - 12"

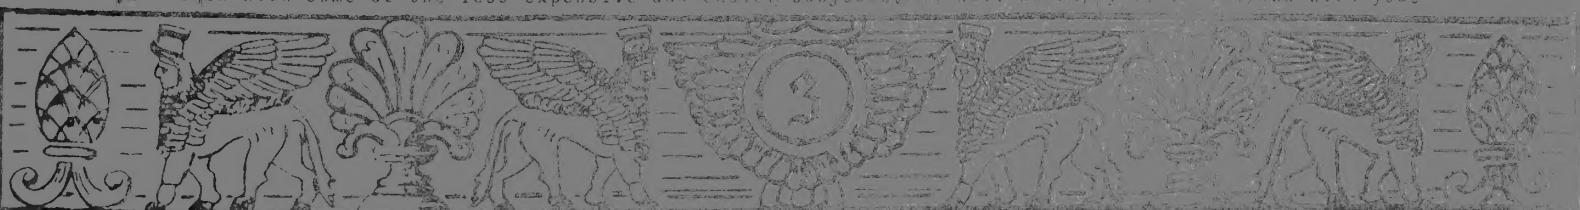

Another species which has great variability. Typically its standards are silvery off-white which has a greenish flush and light brownish veins. The falls are similar with a prominent signal of maroon. This one comes from a rigorous climate and should be hardy in most places. The broad beard is cream-yellow with a green tint that particularly accents the flower.

\$1.50

SUSIANA VE 12"-18"

This is the best known and perhaps one of the easiest of the Oncos to grow and bloom. Its flowers are simply huge and generally speaking have little variation in coloring. The background is of silvery, off-white and the veins, lines and dots which decorate its entire surface are brown purple-black which gives both a subdued and exotic effect. This is heightened in some examples by a slight green flush. The blooms are almost complete globes in form. It is a good breeder, hybrids are now beginning to appear in Catalogs.

\$3.00

Regelia Species

HOOGIANA E 24"

\$1.00

This was discovered in fairly recent times and comes from Turkestan, near Tibet. The best specimens are considered to be the closest of all Iris to 'true blue' although, as in other species, there is considerable variation. It is noted for its satin-like quality.

HOOGIANA PURPUREA E 24"

\$.75

Same as the type but the color approaches a royal, rich purple and there is a darker signal patch.

KOROLKOWI E 20"

\$1.00

All the variations of this species have elegant elongated shapes, rather than the globular form most often met with, in the Oncos particularly. It

has a creamy white ground with chocolate-brown veins and a deep signal patch.

KOROLKOWI VIOLACEAE E 18"

\$1.50

Similar to the type but has a whiter ground with reddish velvet veins and a dark signal. This, in combination with several Oncos has given many of our most beautiful RegeliaOCyclus hybrids.

STOLONIFERA E 20"

\$1.00

The standards are white shaded at the edges with heliotrope in a plicata pattern and the falls are shaded lilac with a broad chocolate edging.

STOLONIFERA LEICHTLINI E 20"

\$.75

More deeply shaded and ruffled than the type.

Regelia Hybrids

HOOGIANA BRONZE BEAUTY E 24" \$1.50 - 3 for \$3.25

(Hoogiana X Stolonifera)

This outstanding, vigorous hybrid has tall, strong stems and lovely flowers. The standards are light heliotrope-violet, while the falls are a rich, dark violet. There is a cinnamon-brown edging to both.

LUCIA (Loo-chee-a) E 20"

\$1.75

(Hoogiana X Stolonifera)

Here is a handsome ruby-red bloom with the elongated and pointed petals which are typical of the pod-parent. The decorative beard is steel-blue.

ORESTES (O-res-tes) VE 18"

\$1.75

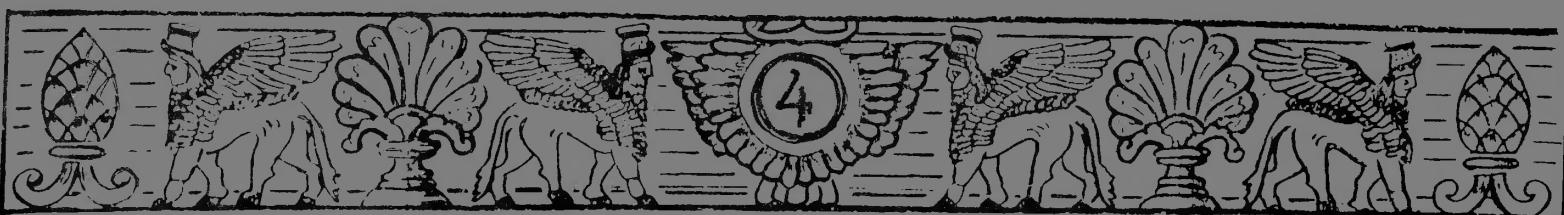

Orestes was the son of Agamemnon and Clytemnestra. He had two sisters - Iphegenia and Electra. The

flowers are of a rich, mahogany-red with a beard of brown. It is slightly frilled and waved. An iridescence of purple and violet gives an added quality of brilliance.

VULCANUS (Vul-Kan'-us) E 18"

\$1.50

(Korolkowi X Stolonifera)
Vulcanus was the god of Fire and made armor for the Olympian gods. He was the only immortal who was both lame and ugly. Generally accepted as the son of Zeus and Hera and the husband (strangely enough) of Aphrodite (Goddess of Love). This latter lady was usually busy with the affairs of love - her own and others. The flower is slender and pointed, of chocolate-brown. There is a glossy violet blotch in the center of the beard, which is a striking blue.

Regelio-Cyclos Hybrids

This year we INTRODUCE four new Regelio-Cyclos hybrids from the famous firm of Van Tijenbergh of Haarlem, Holland. They are generally considered as being easier of culture than the Oncocyclos species and while the flowers are not so large as the Oncos they combine the beauty of both parents and the plants usually produce two blooms per stem. All are stunning and we heartily recommend them to the novice in Aril culture.

AMPHION (Am-fee-on) L 20" \$6.00
 (not recorded)

The white standards are lined violet, the falls are also white but lined with a faint bronze and accented by a brown signal. The elongated form suggests KOROLKOWI parentage.

ANCILLA (An-sil'-a) M 12" \$6.00
 (not recorded)

The standards are white uniformly veined in soft blue. The falls are delicately netted with gray-brown. Unusual and could be out of Bismarkiana.

ANDROMACHE (An-drom'-a-kee) VE-E 18" \$1.00
 (korolkowi violaceae X mariae)

Hector, a King of Troy, had a beautiful and devoted wife, for whom this flower was named. Rather sil very white with wine-red veining and a deeper signal patch. It is oval in shape. Fertile both ways.

ARTEMIS (Ar'-tem-is) VE 20" \$1.00
 (Korolkowi venosa x mariae)

Artemis, also known as Diana, was the twin sister of Apollo. Their parents were Zeus and Leto. Artemis was the Goddess of the Chase-and small wonder for Zeus - who was the head man - was usually on the chase, much to jealous Hera's (his wife) disgust and anger. This is a stunning flower with a modified korolkowi form. It is in off-white with a heavy patterning of deep purple and a black signal. Very good for hybrid work.

CAMILLA (Ka-mill'-a) E 12" \$.75
 (korolkowi X paradoxa)

A mortal maiden who lost her life in leading a warrior band against the Trojans. (Not a football team). The standards are deep bluish purple while the falls are off-white with dense veinings of purple and an almost black signal.

CHARON (Kar'-on) VE 16" \$2.00
 (korolkowi venosa X atropurpurea)

Charon was ' the dark Boatman ' who met souls and ferried them across the River Styx to the nether-world which was ruled by Pluto. A different coloring appears in this flower from most of this group. It is of bronzy, gold-buff with an infusion of reddish-orange and veins of deep maroon. Signal is black on the red side.

BOCENA (Bo-sec'-na) EW 20" \$3.50
 (not recorded)

This is rather unusual for its lack of patterns. The standards are deep violet-purple, while the falls are bronzy black. Could have atropurpurea in its makeup.

CLARA M 16" \$6.00
 (not recorded)

This is quite different in its coloring. It is bronzy in tone with violet shadings and signal. The blooms are large and globular.

CHIONE (Kee-o'-nee) E 15" \$3.50
 (not recorded)

Chione was a very beautiful girl whose history is a bit obscure. Apollo, it seems, was either her lover or her ancestor - she became so excited about her beauty that she compared it to Artemis herself. This was too much for a jealous goddess to take and she forthwith slew the offender. Perhaps it was an arrow - perhaps, like the Red Queen she shouted ' OFF with her head !) The standards are white with a soft blue veining while the falls are netted in gray-brown. Formerly named ' CIRCE ' according to the B.I.S. Yearbook for 1954.

CLOTHO (Kit'-otho) \$1.50
 (korolkowi x paradoxa) X (Artemis)

Remember the THREE FATES ? Clotho was the spinner. Deep purple veins cover a lighter tone in the standards and the purple falls are veined with black, the beard is sable.

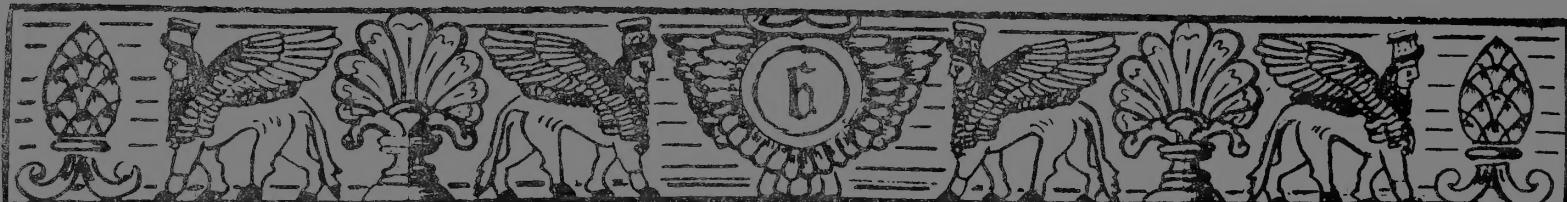

DARDANUS (Dar'-dan-us) E 18" \$1.00
 (korolkowi caerulea x iberica)

Dardanus was the legendary founder of the Trojan race. Purely white veined in lilacshaded purple.

EUNICE (Yoo'-niece) E 15" \$1.50
 (korolkowi caerulea x iberica)

Eunice was the mother of the Apostle Timothy. This is a fine - although somewhat smaller flower than many of this type. Standards are pearl-gray with soft violet veins and the falls are creamy netted with a few pink of delicate tints. This and the previous variety have the same parentage and are perhaps sister seedlings.

ISIS (I'-sis) E 14"	\$1.25	TEUCROS (Too'-cross) E 18"	\$1.00
(korolkowi violaceae X iberica van Houttei)		(korolkowi concolor X iberica)	
Isis, with the Egyptians, was the sister-wife of Osiris and was head goddess. Later the Romans accepted her into their extensive Pantheon as a nature goddess. The flower standards are a shade between carmine and fuchsia while the falls are in a light buff overlaid with maroon veins. The signal patch and beard are almost black.		Teucros is a variation of the name Teucer - the original was a son of the River Scamander and first King of Troy. This flower, like many of its relatives, is a two toned beauty. The standards run to a soft pink with darker veins while the falls are silver-white with a pink flush and maroon veins which become an almost black signal.	
ISOLDA (I-sol'-da) E 18"	\$2.25	THESEUS (Thee'-sus) EM 20"	*1.50
(korolkowi venosa X atropurpurea)		(not recorded)	
This name comes from mediaeval Brittany rather than from the Greek. The opera, 'Tristan and Isolda' was written around the romance which also involves King Mark of Cornwall. The flower has one of the more unusual colorings in this type - over a mahogany ground - a network is spread of old-gold veins		Again we are on familiar ground. This guy was an Athenian king who conquered the Amazons and took their queen for one of his wives. The deep violet standards have even deeper veining and the cream white falls have veining and a signal of deep violet.	
A.M. '14 - R.H.S			
LUNA (Loo'-na) EE18"	\$2.00	THOR (VE 12"	\$.75
(korolkowi violaceae X susiana)		(korolkowi X sari)	
The Roman name for Artemis who doubled in brass -- I mean doubled as the goddess of the moon! This is an exceptionally good variety with its ground color of cream-white on which appears a flush of pink to lavender. The red-violet veins converge into a red-black signal patch.		Thor was the Norse God of Thunder. He had a magic hammer which he used to fling about rather freely when he was angry - which was most of the time. Nasty disposition!!! This flower is quite handsome in spite of being a bit short. The pearl-gray ground is netted in heavy purple veining. The signal is even darker.	
A.M. '07 - R.H.S.			
SYLPHIDE (Sil-feed') ML 15"	\$7.50	ULYSSES (You-lis'-ees) E 16"	\$3.00
(not recorded)		(not recorded)	
This is not the same as the original Sylphide introduced some years ago. The flowers are large and globular in a silvery white. The standards are veined in pale gray while the falls have deeper veins and a signal of almost black. It is fertile both ways.		Ulysses headed the Quest of the Golden Fleece - no, that was Jason. Well, anyway, he must have been a slippery character for he had an alias - name of Odysseus and dreamed up the Wooden Horse hoax that led to the downfall of Troy. Standards are light lilac, falls cream, both with deep veining and a signal.	

Aril-Bred Iris

ABSYNTHE (Craig '56) M 32" \$10.00
 (Variegata Seedling X Joppa Parrot)
 The color is unusual - unexpected. A huge Oncobred
 in olive-yellow with overtones of absynthe yellow,

AHMED AGA (White '53) E 30" \$7.50
 (Unknown)
 A much patterned flower with lavender standards and
 splashes of violet with gold veins. The falls are
 cream-buff edged chamois with a signal of brown.

ALTA MOHR (Paul '48) L 36" \$1.00
 (William Mohr X Alta California)
 Flaring falls of violet-orchid have heavy veins of
 maroon. The standards are orchid with a purple hint

AMERICAN MODERN (Craig '51) M 36" \$2.50
 (Gay Senorita X Joppa Parrot)
 This favorite is quite handsome and clearly shows
 its Onco ancestry. The fine large blooms are olive
 ochre, flecked with blue-green and the falls of the
 same tone are veined with a dark red. An excellent
 bloomer - it increases well and produces seed.

ANATOLIA (Craig '49) M 30" \$3.00
 (Tiffany X Los Angeles) X (Capitola)
 This vigorous grower from the Mohr line has light
 red-violet blooms which are veined and dotted in the
 characteristic Oncocyclus manner.

ANITA CATHERINE (S. Clarke '49) M-L 44" \$1.00
 (Purissima X Mohrson)
 The large blue-white flowers show little evidence
 of its exotic background.

ANYTIME (Cavagnaro '56) M-L 45-50" \$15.00
 (Alba Superba X Lady Mohr)
 This is a flower of large wide flaring falls in white
 with pale chartreuse lines at the hafts. Has an
 extremely heavy substance and as it sets seed well
 it should prove a fine breeder. The cynosure of all
 eyes at the Salt Lake City Convention.
 H.C. '54 - H.M. '56

ARDRUN (McLeod '51) E 36" \$5.00
 (Artemis X Gudrun)
 A large purple-red (almost rose) flower with mid-
 ribs that are strong. A dramatic note is struck by
 the unusually wide brown-black beard. The fertile
 pollen and unusual parentage make this a valuable
 breeder's flower. We highly recommend it.

ARJUNA AGA (White '53) E 36" \$7.50
 A tall, vigorous bi-color with toast standards and
 brown falls which are decorated with a brown signal

ASKALON (Jory '49) M 30" \$1.00
 (Grace Mohr Sdlg. X Capitola)
 A pink-lavender hybrid with deeper colored falls
 which are lighted by a yellow flush.

ASOKA OF NEPAL (White '50) E 30" \$8.00
 (Unknown)
 Mauve standards veined violet with falls of olive

veined russet vinaceous and splashed purple.

BIM (White '42) E 30" \$1.00
 (Unknown)
 Veins and heavy striations of varying tones give
 this olive-buff blossom a definite look of the East.
 It has set seed this year by many of the new
 C.G. White Oncobreds.

BALI AGA (White '51) E-L 33" \$3.00
 (Unknown)
 As in many Oncos, this is a bi-color with standards
 of lavender, veined in purple and falls of a
 rich buff veined and splashed in red. Fertile.

BAMBOO (Craig '53) E-M 36" \$6.00
 (Gay Senorita X Capitola)
 The handsome Mohr-type flowers are of soft straw-
 buff (bamboo) with the falls boldly veined in
 varying tones of red from maroon to burgundy.

BEISAN AGA (White '54) E-M 30" \$15.00
 (Unknown)
 This fine flower has many Onco traits. While it is
 listed as grey-violet with heavy veins of brown-
 purple it looks very deep red - particularly as the
 light shines through it. It has a brown beard and
 a black signal. It has stood up well in some of
 the colder regions. It will set seed and has pot-
 ent pollen on both Oncobreds (and pure Oncos)
 and Tall Bearded.

BELLA MOHR (Ohl '55) M 36" \$15.00
 (William Mohr X Sable)
 A dark glowing purple with no haft markings, it is
 large and vigorous. Really an outstanding variety
 which sets seed and has fertile pollen. H.M. '56

BEN ADHEM (Morris '50) E 28" \$1.00
 (Hoogiana X Benton Daphne)
 A regelia hybrid of which there are still but few.
 It is easy to grow - increases well. Lilac-blue.

BINGHAM (Muhlestein '55) M-L 32" \$7.50
 (Ormaco x Golden Eagle) x (N.J.Thomas
 x Aztec Copper) X (Elena Choosing) x
 (Zebulon x Golden Eagle)
 A copper-red self that shows little evidence of
 the Onco blood in its make-up. Should be good for
 breeding both Arilbreds and Tall Bearded.

BLACK JOPPA (White '54) M 30" \$10.00
 (Unknown)
 While somewhat similar to Joppa Parrot in form, it
 is a more refined type with subtler coloring. The
 slate-grey background has an orchid cast with vei-
 ns and stipplings of brown purple. It is reported
 as setting seed well - it still has not done so
 in 1957 but its plentiful, potent pollen is quite
 enough to recommend it highly.

BLUE ABALONE (Austin '55) EM-M 32" \$2.50
 (Elmohr X Abalone Shell)
 This is a charming bloom with good substance. Its

standards are of pale lilac-blue, the rails are of a deeper tone which pale at the edge and have brown veins at the haft. The bright tangerine beard lends considerable character.

BLUE ELEGANCE (Jory '48) E 40" \$1.00
(Purissima X Capitola)
The large blooms have flaring falls of chicory-blue with deeper veins. It is reported winter hardy in spite of its Purissima blood. H.M. '49

BLUE FAIRY (Muhlestein '53) E 36" \$1.00
(Cool Lemonade X Hoogie Boy)
This is a fine blue - a good grower which increases well. Flowers over a long period.

BLUING (Craig '51) E 24" \$3.00
(Purissima X Capitola)
A starched and flaring light blue self of great distinction. A repetition of a famous cross.

BLUE MOHR (Marx '49) M 36" \$3.00
(William Mohr X Orloff)
One of the first blue Mohrs. Typical form in a soft plumbago-blue, no veining. H.M. '49 - A.M. '52

BLUE OX (Craig '49) M 34" \$2.00
(Acropolis X C.G.White Onco-bred)
Big lavender-blue flowers of almost leathery substance. No pollen but sets seed.

BUTTERFLY WINGS (White '46) M 36" \$1.50
(Pink Jadu x susiana) X (Theme x Sacramento)
Blooms profusely on tall well branched stems. Some like its exotic patterning - others do not care for it at all - passes interesting colors and designs to its seedlings - several of which have been introduced. The standards are light lilac-blue - the falls parchment veined in mulberry, brown and crimson. A startling creation. H.E. '47

CALICO (Jory not registered) M 36" \$1.00
(Unknown)
A showy flower of violet irregularly splashed with white. Very popular.

CANAAN (Jory '49) M 30" \$5.00
(not listed)
Large Mohr-type flowers with orchid-grey standards and violet falls.

CAPITOLA (Reinelt '40) E 20" \$1.00
(William Mohr X Ib-Mac)
This is a breeder's flower for it is not too easily grown. A fertile pollen parent - valuable for its 'gatesi' blood on one side and 'iberica' on the other. Slight veins on a red-violet ground.

CERULEAN (Craig '50) E 40" \$6.00
(Purissima X Capitola)
The large Mohr-type blooms are a lovely 'cerulean' blue with faint veins to indicate its Onco breeding

CHENIK AGA (White '54) E 26" \$50.00
(Unknown)
A giant bloom more highly colored than Joppa Parrot. Its standards are creamy with splashes of purplish red while the falls are golden orange with black-maroon striations. Pollen extremely potent. It is still an outstanding creation and draws much attention wherever seen.

CITHINE (White-Eckels '53) E 40" \$4.00

(Unknown)
The smoky-chartreuse blossoms are veined in a darker tone with deeper green styles and crest.

COLOSSAL (Marx '46) M-L 34" \$1.00
(William Mohr X El Capitan)

The really huge Mohr-type flowers are of a soft lavender-violet with darker veins.

CONQUEST (Marx '52) E 30" \$5.00

(Snoqualmie X Capitola)
This is a large Onco-bred which has wistaria standards and creamy falls with a lavender signal has ample pollen.

COQUETRY (Schreiner '41) E 25" \$2.50

()
A delicate ruffled bloom which shows its Oncocyclus background. Standards white, flushed and veined in lilac. Falls are lilac-pink with darker maroon dots. It is a tetraploid with 48 chromosomes - should be of value in breeding.

CORONATION TAPESTRY (Craig '53) M 36" \$7.50

(Gay Senorita X Joppa Parrot)
We consider this one of Mr. Craig's outstanding and important introductions. It is a bi-color involving lilac, brown, purple and green in an indescribable manner. It increases well and should be in every Aril-bred collection of any size. H.M. '55

CRYSTAL CLEAR (Craig '51) E 36" \$6.00
(Purissima X Capitola)

Large Mohr-like flowers in pale blue with a cast of soft green.

DAMASCUS BLADE (White-Eckels '52) M 38" \$5.00

(Unknown but involving Quaker Mischief)
An indescribable blend of steel-grey, mauve-pink and brown with a light blue blaze at the end of the beard. Reported hardy and as being $\frac{1}{4}$ Onco.

EASTERMOHR (Weidner '53) EM 40" \$10.00

(William Mohr X Easter Morn)
Tall and well branched - it is one of the closer approaches to blue in the Arilbreds. The flowers are large and ruffled with typical domed standards and semi-flaring falls. Hardy in the East.

ELENA CHOOSING (White '44) E-M 36" \$1.00

(Answer X Joccund)
The glistening metallic gold blooms have shadings of darker bronze and lilac which give an Onco hint to the general appearance.

ELMOHR (Loomis '42) M 34" \$1.00

(William Mohr X H22: a red seedling)
This Dykes Medal winner was a sensation when it was first seen and when well grown will still stop traffic. It is unique in shape and the glowing dahlia-purple or reddish mulberry is distinct. The veins are self colored but prominent. It will set seed and has fertile pollen. DYKES MEDAL '45

ENCHANTED (White '39) E 30" \$10.00

(Onco X Bearded)
The large cupped standards are white which is almost obscured, so heavy is the deep mulberry veining. There is a brown beard and black signal.

ENGRAVED (Craig '52) E-M 32" \$5.00
(Mariposa Mia X Capitola)
The pale pearl-gray flowers are heavily veined with a neutral gray pattern and a violet flush. H.M. '53

ETCHING (Craig '52) L 302 \$5.00
(Mariposa Mia X Capitola)
A pale gray ' Mohr ' with veins which seem to have been ' etched ' by some Master Artist.

EVENSONG (Frazee '50) M 36" \$2.00
(N. J. Thomas X Ylow sdlg from W R Dykes)
A much finer flower than its pod parent would seem to indicate. The wide, large flowers are of mignon and Patriarch-purple. Sets seed. Has open standards H.M. '50

FANCY WORK (Craig '51) E-M 40" \$7.50
((Tiffany x Los Angeles) x (Sib))
X (Capitola)
A fine, large Mohr bloom of yellow which is decorated with Burgundy-red.

FLAIRMOHR (Craig '54) M 32" \$10.00
(Purissima X Joppa Parrot) X (Capitola)
A charming flower in tones of very grayed blue. Tak takes after the ' Mohr ' side.

FLURRY MOHR (Rees '50) E 42" \$14.00
(Snow Flurry X Capitola)
A huge, deep rich violet which tends to open its standards flat in the ' Japanese ' manner - stunning for arrangements. s

FOR SURE (Linse '53) EM 37" \$7.50
(Lady Mohr X Painted Desert)
The creamy standards have a tan flush with a bright er border. The falls are slightly deeper with an infusion of violet around the beard. \$7.50

FRANCES CRAIG (Craig '52) M 40" \$5.00
(Snow Flurry X Capitola)
The originator says it is ' a grayed lavender self which gives little hint of the great beauty of this really outstanding flower. Increases rapidly and it will occassionally set seed. H.C. '51 - H.M. '53 - A.M. '54

GAZA (Jory '49) E-M 27" \$1.50
(Garce Mohr sdlg X Capitola)
The large blooms are a peculiar light gray-pink called ' Clay-pink ' This is a lovely flower and we have had it set seed well.

GENEROUS (Muhlestein '55) E-M 30" \$6.00
(Utah Sunset) X (49-2 : Elena Choosing x sdlg: Zebulon X Golden Eagle)
Extremely large golden-russet which we think quite worthwhile for breeding. Has set to Arilbreds for us. Fertile both ways.

GLOWMOHR (Craig '53) M 30" \$6.00
(7-302 X Capitola)
A large, heavily patterned Mohr in a lovely tone of rose-lilac.

GOLD OF OPHIR (Austin '56) M-L 40" \$4.00
(not listed)
The bright gold blooms are not large individually but are borne in great profusion. It is marked in a similar pattern to Butterfly Wings though not so boldly. Has set seed for us this spring.

GRAY MOHR (Paul '56) E-M 36" \$10.00
(Wm. Mohr X # 18 : (Alta Calif. x King Mid x King Midas)
The yellowish grayed chartreuse falls are flecked with olive-brown. The standards are a clearer tone. This is a real ' throw-back ' to its Oncoclyclus grandparent 'gatesi

GREEN MOHR (Muhlestein '51) ML 40" \$2.00
(Wm. Mohr X Chosen)
This is a large Mohr-type bloom of straw-yellow with chartreuse undertones - quite greenish in cast. when first opened. The falls have a center flush of lavender. It has pollen and sets seed - we are using it in our ' green breeding ' program. H.C. '50 - H.M. '52

GROS GRAIN (Craig '50) M 30" \$2.00
(Wm. Mohr) X (Purissima x Gudrun)
This is a lovely quiet gray-lilac flower which we like very much. The veined pattern is done indeep violet.

HARIB PASHA (White '55) E 27" \$10.00
(Unknown)
This is a violet bi-color with a rich onco- pattern. It is further enhanced by splashes and a signal that borders on the black side. It is typicaly onco in its tendency toward frailness.

HEBRON (Jory '49) EM 36" \$1.50
(Grace Mohr sdlg X Capitola)
The Mohr shaped flowers have an unusual coloring which might be best described as honey-brown.

HEIGO (Craig '48) M 42" \$1.00
(Purissima X Capitola)
One of the finest varieties from this cross which has given so many beautiful and outstanding flow-ers to Tom Craig. The clear violet blooms are set off by a dark signal patch. H.M. '49

HELEN KENNEDY (Kennedy '53) E-M 42" \$1.00
(Snow Flurry X Luna)
A full, wide flower of blue with a white beard. Shows no Aril type but might be useful in breeding.

HOOGIE BOY (Muhlestein '49) E 27" \$1.50
(Hoogiana) X (G. Serouge x Salutation)
The wistaria-violet flowers are brushed on the hafts with gold and the beard is also gold. Has fertile pollen and will set some seed. H.M. '49

HOOGSAN (Samuelson '47) EM 36" \$1.00
(Hoogiana X San Francisco)
A large, smoother hoogiana. The delphinium- blue blooms are strongly suggestive of its seed parent but much easier to grow and increases well.

HUNT MOHR (Hunt '56) M-L 36" \$15.00
(Elmoahr X ? possibly Great Lakes)
A lovely blue-violet ' Mohr ' which shows its Onco breeding. Good seed parent.

HURRICANE (Craig '49) M 32" \$2.00
(Purissima X Capitola)
The big flaring flowers of heavy substance are of pale powder-blue with an infusion and marbling of lilac. A good performer, admired by all. H.C. '48 - H.M. '49

IB-MAC TRUE (Van Tubergen '10) E 12" \$2.00
(liberica X macrantha)

A large, globular flower of deep rose-violet which is quite striking. The brown beard is accented by the black signal patch. Quite potent pollen. Leaves are sickle shaped (falcate) in the Oncio fashion - and white based which helps to distinguish it from the variety which bears the name IB-MACRANTHA.

ILLUSION (Kleinsorge '43) L 34" \$1.00
(Ormohr X Red Cross)
An orchid self. Will set seed at times. H.M. '47

IMAM ADIB (White '56) E 30" \$20.00
(Unknown)
A large Oncobred of primuline yellow with slight veining and splashes of brown. The beard and slight signal are also of brown. Quite limited in stock.

IMAM AHMID (White '56) E 36" \$20.00
(Unknown)
The large blooms have lilac standards typically veined in violet with falls of old gold which seem to be dusted with gold. The plant is quite vigorous. Stock limited.

IMAM JABAN (White '56) E 30" \$20.00
(Unknown)
A large bi-color with oyster-shell standards and primuline-yellow falls. Potent pollen - we have at least one set on one of Mr. White's pure Oncos hybrids by this bright variety. Small stock.

IMAM SALAH (White '56) E 42" \$25.00
(Unknown)
We saw this huge bloom at Mr. White's garden - it is a globular type fully 9" in diameter. The sulphur flower has overtones of amber and a purple signal.

ISMALI (Foster '09) E 24" \$3.50
()
Rather small flowers of pinkish lavender with style arms of medium violet. Rare - of interest to breeders and collectors.

JABAL KERAK (White '55) E 30" \$20.00
(Unknown)
The standards are of greenish white - the falls of lemon with a purple signal. Good breeder.

JALLAHADDIN (White '55) E 30" \$15.00
(Unknown)
A broad petaled onco bi-color in tans - the standards are of medium tan, the falls brown with a border of lighter tan. The entire bloom is veined, stippled and splashed in darker brown.

JALLAH EFFENDI (White '52) E 32" \$7.50
(White)
Standards of green-yellow with mahogany veining and red splashings. The falls are yellow, veined in red and have purple splashes.

JOEL AGA (White '53) E 24" \$5.00
(Unknown)
A dark, rich colored hybrid with a heavy pattern of purple stipple on a buff ground.

JOPPA PARROT (White '48) E 24" \$5.00
(Oncobred)
One of Mr. White's most famous originations. The dome-shaped standards are shaded with mauve to mulberry and there is a trace of deep purple. The gold

brown falls are splashed and striated with mulberry. This variety must be divided annually in order to prevent loss.

JUMNA (White '50) E 18" \$3.50
(Unknown)

Similar to Joppa Parrot in size and form but in varying tones of purple and violet with an almost black signal. Quite fertile pollen.

KALIFA BALTIS (White '54) " 36" \$25.00
(Unknown)

Handsome bi-color of buff and olive. The signal is of Bordeau and quite pronounced. Very fertile pollen - we have had sets on pure Oncos with it.

KALIFA FATIMA (White '52) E 24" \$7.50
(Unknown)

Strongly suggestive of the true Oncos, this one is much easier to grow and flower. In shades of gray, blue and purple with an almost black signal. Has fertile pollen - even on true Oncos.

KALIFA GULNARE (White '54) E 34" \$25.00
(Unknown)

The huge blooms are something new in the bi-color class. The domed standards are a lovely pale lavender while the falls are rose with a suggestion of henna, a deeper signal and a golden buff border complete this beauty. Much admired in our gardens. Wonderful breeder.

KALIFA HIRFA (White '55) E 30" \$10.00
(Unknown)

Another stunning bi-color, this one with lavender gray standards and old gold falls, splashed a deeper purple.

KALIFA KABUL (White '54) E 30" \$10.00
(Unknown)

This is a vigorous plant with blooms of yellow with a greenish cast, with brown splashes. It is an excellent breeder and will be quite valuable to several phases.

KING DAVID (Craig '51) E 36" \$3.00
(Acropolis X Capitola)

A tall variety which has deep, rich purple flowers of a heavy, velvety texture. The deeply veined pattern adds even more to its substance.

KISH (White '44) M 18" \$1.00
(Unknown)

The near white standards are lightly veined in violet while the more deeply colored falls are closely veined and dotted with violet and have a dull maroon signal. Cuts well.

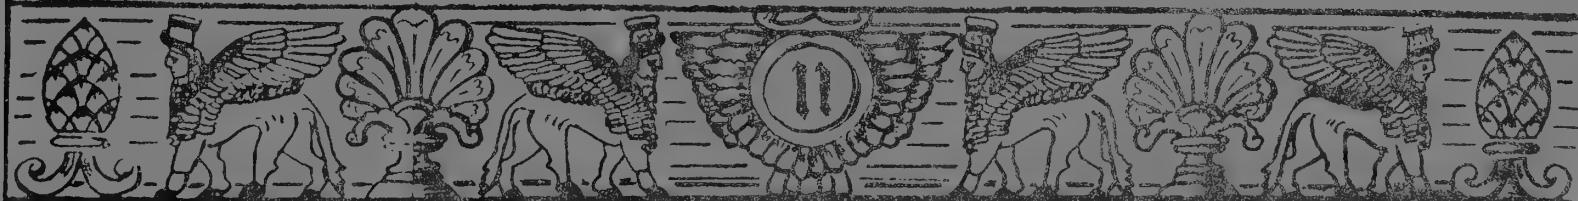

KRIM AGA (White '55) E 24" \$10.00
(Unknown)

Violet standards and onion-skin pink falls which are splashed corinthian red.

LABAN EFFENDI (White '54) M 30" \$4.00
(Unknown)

Here is a flower that lends itself well to the arranger. It increases and blooms well. The standards are soft lavender with deeper markings; the falls are medium purple with an undertone of wine red which deepens at the center to make an almost black signal. We understand it is fertile although our own efforts have not been successful.

LADY DOZIER (Dozier '49) M 36"	\$5.00	MARY McCLELLAND (Craig '52) M 50"	\$20.00
(Ormohr X Brunhilide)		(Blue Ox X Chivalry)	
This handsome flower has inherited MOHR of the Mohr qualities than many Oncobreds which contain a much greater amount of Aril blood. The large blooms show a deep blue tone with lines that seem to be embossed. While still not well known it should be more widely used.		A huge deep blue with all the good qualities.	H.M. '54
LADY MOHR (Salbach '44) E-L 36"	\$1.00	MARY VALENTINE (Craig '52)	\$10.00
(Alta Calif. X King Midas) X (Capitola)		(Purissima X Capitola)	
Still a handsome and desirable iris. The standards are oyster-shell white with an infusion of faint lavender. The broad, rounded falls take their 'sea-foam' yellow from the Onco gates in Wm. Mohr.		Large flowers of good substance which hold their blue color with little fading.	
H.M. '44 - A.M. '46			
L'AMOHR (Craig '54) M 32"	\$6.00	MERMAID (VE 15")	\$2.00
(Lady Mohr X tangerine pink sdlg)		Pale lavender standards that have a blue cast while the falls are a yellowish buff that look decidedly green. Maroon splashes. Sets seed to pure Oncos.	
Very like a pink 'Lady Mohr' with a dark signal of red-violet. The onco markings are of soft gray-rose violet.			
LAUREL HILL (Plough '49) M-L 30"	\$1.00	MOAB (Jory '49) EM 30"	\$1.50
(Wm. Mohr X (Esplendido x Bruno))		(Grace Mohr sdlg X Capitola)	
A large heavy substanced bi-tone of bright rosy lavender with characteristic Onco veining. While this hardy variety has pollen but rarely - it sets seed quite readily.		The full Mohr type blooms are brown of a strange and exotic appearance.	
LEMON SILK (Austin '54) EM 30"	\$2.50	MOHR and MORE (Muhlestein '53) M 40"	\$4.00
((Aldura X Capitola)	
The silky standards are lemon-yellow while the falls are of white with a tiny edging of yellow. It is at times flushed lavender. Increases and blooms lavishly. Often has a half dozen blooms open per stalk.		Very heavy substanced rich purple self. It has a tendency to produce extra standards and falls as well as style arms -- thus the name.	H.G. '51
LITTLE LAKE (Muhlestein '51) EE 20"	\$1.00	MOHR BEAUTY (Milliken '49) M 36"	\$2.00
(J. Sass hoogiana sdlg X Chivalry)		(Elmohr X yellow sdlg)	
A small jaunty Iris with flaring falls. Tell says this is true blue and fertile both ways.		In form it resembles its famous parent, with a bit more ruffling. It is a self of pale light yellow with what could be called a signal patch of palest gray-lavender.	
MAGIC LIGHT (Austin '55) EM 30"	\$10.00	MOHR COURAGEOUS (Naylor '54) E-M 34"	\$10.00
(Theseus X Pink Formal)		(Wm. Mohr) X (Snow Flurry x Winter Carn)	
An interesting Regeliocyclus tall bearded hybrid. The silvery pink standards are veined in dark crimson. The falls are silvery rose with deeper veins and a deep maroon signal patch.		A flaring, heavily substanced violet-blue Mohr with a brownish cast in the falls. A fine Iris.	
MAMA (Savage '54) M38"	\$15.00	MOHRDYKE (Aylette) M 30"	\$5.00
(Snoqualmie X Wm. Mohr sdlg of Loomis)		(Wm. Mohr X W.R. Dykes)	
Large warm white self which is a good parent both ways.		An odd shade of silvery blue which shows its exotic background.	
MARGARET CRUISE (White '54) E. 33"	\$5.00	MOHR ELEGANCE (Austin '53) EM 32"	\$1.50
(Gay Senorita X Oncobred)		(Snow Flurry X Capitola)	
The large, well formed blooms are of yellow with fine red-brown veins in the falls which shade to green-brown at the edges.		This Mohr has lovely and elegant Onco form. The pale amethyst blooms have an indication of veining and the rather broad beard of Arils. While with us it has not had pollen it sets seed well.	
MASTER NEIL (Jensen '52) E-M 36"	\$3.00	MOHRESQUE (Keith '50) EM 38"	\$1.00
(Wm. Mohr X Stained Glass)		(Doxa X Zwanenburg)	
An interesting plicata which shows no Onco blood at all. Cream ground marked in pink and cinnamon.		This is NOT a Mohr - its name means LIKE a Mohr! We have had recent information that Doxa is ½ susiana as is Zwanenburg which gives the same amount to Mohresque. The standards are of a light yellow brown while the falls shade from yellow - buff to olive-chartreuse at the hafts and are flecked with purple. Will set seed.	
MAUVE DUST (Craig '53) M38"	\$7.50	MOHR GLORIOUS (Muhlestein '52) M-L 32"	\$12.00
(E 3012 X Capitola)		(Elmohr X Tompkins 42-58 : ((Wm. Mohr x Mussolini) x (The Red Douglas x Joysette))	
This is an entrancing flower if ever we saw one! If you like sultry, subtle blooms - this is for you. It is really big and gorgeous. To say that it displays shades of dusky violet is an understatement. Like all Arilbreds it must be seen.		While it resembles its parent Elmohr it is richer in color and of heavier substance.	H.C. '51 - H.M. '54
MASTER NEIL (Jensen '52) E-M 36"	\$3.00	MOHR MAJESTY (Walker '52) L 36"	\$4.00
(Wm. Mohr X Stained Glass)		(Wm. Mohr X Golden Majesty)	
An interesting plicata which shows no Onco blood at all. Cream ground marked in pink and cinnamon.			
MAUVE DUST (Craig '53) M38"	\$7.50		
(E 3012 X Capitola)			
This is an entrancing flower if ever we saw one! If you like sultry, subtle blooms - this is for you. It is really big and gorgeous. To say that it displays shades of dusky violet is an understatement. Like all Arilbreds it must be seen.			

A handsome Mohr with broad falls and standards that are beautifully domed. Straw-buff blends into tones of chartreuse with typical veining. A gorgeous wine red flush in the falls lights the entire flower. It sets seed well for us. Incidentally it is a test-tube baby.
H.M. '52

MOHRNING DOVE (Craig '53) M 32" \$6.00
(Mariposa Mia X Capitola)
An immense Mohr hybrid with flaring falls. It is in a soft dove-gray with a pastel flush and deeper colored veining in an unusual pattern.

MOHR VELVET (Muhlestein '52) ML 36" \$2.00
(Elmohr X Hail Flamingo Pink) X (45-41D : Sister to Salmon Shell)
A smooth rich yellow self with a velvety texture to the falls. Shows little of the Onco in its make-up but is a handsome bloom and has quite fertile pollen C. of C. '51

MOONCHILD (Craig '55) M 24" \$8.00
(Moongoddess X Ib-Mac)
While small, this is a delightful variety which is quite useful as a border plant. While it is in several tones of warm grays there is a mulberry signal which lights it even more. Lovely for arrangements.

MORNING BLUE (Jory '48) E 40" \$1.00
(Purissima X Capitola)
Another huge flower out of this famous cross. There are variations in the rich, medium blue color according to its highlights and shadows.

MOUNT ARAHAT (Jory '48) EM 36" \$1.00
(Grace Mohr X Miss Muffet)
This is a plicata in white and violet which is not what one would expect from its parentage.

MOUNT SINAI (Jory '49) EM 32" \$1.50
(Grace Mohr sdlg X Capitola)
An interesting flower of coffee-brown shadings.

MUSTAPHA (White '40) E 24" \$1.25
(Onco-bred)
This exceptional flower has gray and lavender standards and flaring maroon falls.

MY DAY (Tharp '44) M 30" \$1.00
(Wm. Mohr X Los Angeles)
A Large white flower with overtones of varying shades of violet.

MY O MY (White '41) E 24" \$1.00
(Oncobred)
The medium sized white flowers are veined and dotted at the edges with rosy purple. The falls which appear somewhat darker have veins and a pointed signal patch of dark purple.

NEAR EAST (White '39) VE 24" \$1.00
(Onco X Bearded)
This ruffled light yellow is flushed and marbled in rose and heavily veined maroon. Very decorative.

NELSON OF HILLY (White '41) E 24" \$1.00
(Oncobred)
This is one of Mr. White's most charming creations. The white standards have a bluish lavender cast. The cream colored falls are beautifully dotted with cinnamon and deep lavender.

NEW LOOK (Johnson '52) E-M 33" \$2.00

(Wm. Mohr X probably Bruno)
While this is quite red there is still purple in its make-up. It has intricate Onco veining and is quite an eyecatcher. The standards are open.

NIGHT MOTH (Craig '50) E 38" \$4.00
(Advance Guard x M2-21) X (Jumna)
A really flower. Note the use of Mr. White's 'Jumna' as the pollen parent. The blooms are pale wistaria, veined in muted violet. If you appreciate the soft pastels, you will like this one. It sometimes produces 'proliferations' on the stalk after the fashion of many Daylilies.

NO MOHR (J. M. Gibson '54) M 38" \$15.00
(Snow Flurry X Elmohr)
The large beautifully ruffled flowers of bamboo-cream are heavily substance and unusually long lasting. The falls have a faint flush of Elmohr's coloring.
H.M. '56

ODD FELLOW (Muhlestein '56) E-M 20" \$8.00
(Elmohr X C. Larsen sdlg : Mohrson x Beau Ideal x Wesatch)
A white plicata brushed and flecked in violet-blue -- no two blooms are ever the same. Leather-like substance. A difficult parent but could be valuable in breeding.

OLIVE ORCHID (Austin '56) L 40" \$7.50
(Butterfly Wings X Chivalry)
Medium sized flowers of lilac to orchid with prominent olive-green markings on the falls as one could expect from Butterfly Wings. It has very good substance and branching - should be of considerable breeding value. Potent pollen.

OYEZ (White '38) M 27" \$1.00
(Polyhymnia X Jubilee)
The pod parent which gives this fascinating flower its exotic appearance is from 'korolkowi violaceae X iberica Van Houtteii'. The pinkish white standards are veined in brownish rose and the stiffly flaring falls of cream are extremely lined in brownish maroon. It is stunning for the arranger's use and we have had pods this year by Oncocyclus as well as regelio-cyclus and other Arilbreds.

PALI OF BACTRIA (White '51) E 30" \$4.00
(Unknown)
The standards are of deep lavender with a mid-rib of greenish yellow and darker veining. The falls are similar with golden brown at the haft. car

PAR-VAR (Foster ') VE 20" \$1.00
(paradoxa X variegata)
The erect standards are of dark lavender. The small falls of nearly black are typical of its pod parent. There is a heavy purple-black beard. It is fertile both ways.

PEACH SHERBET (Craig '55) E 30" \$5.00
(Blus Ox) X (Mt. Wash. x Flora Zenor)
x (Lady Mohr x Pink sdlg)
This is a fine broad petaled flower of pastel-peach. Quite weather resistant and should give interesting offspring.

PEARLIMOHR (Valette '53) E-M 32" \$1.00
(Gudrun X Capitola)
Large Mohr-type blooms in pearl-gray and a violet

overcast. A pale bloom of thin substance. Sets seed.

PERSIAN MOHR (Austin '53) EM 33" \$2.00
(Golden Majesty X Capitola)
The large round standards are of silvery violet
while the dark mulberry falls are patterned with
intricate brown markings.

PERSIAN PATTERN (Craig '50) E-M 34" \$5.00
(Gay Senorita X Ib-Mac)
The gold standards shade to olive at the ribs. The
falls are the same with an all over maroon pattern.
Tends to rebloom.

PHOEBUS APOLLO (White '54) EM 36" \$20.00
(Oncobred)
Large flowers with flaring falls of a rich wax-yellow
with remarkable substance. It is fertile both
ways and should give some wonderful seedlings. It
has been a sell out each season with almost all
growers. Named for the Greek God of the Sun.
H.M. '55

PHOSPHORESCENT (Craig '51) M 34" \$5.00
(Gay Senorita X Joppa Parrot)
A blend of Naples-yellow to golden ochre with hafts
of brown-madder. A lustrous lavender flush radiates
over the falls. Fertile both ways.

PINK MARBLE (Austin '55) E 24" \$5.00
(Cherie X Capitola)
Mohr form but rose toned with us. The white and
green marbled foliage is quite decorative. Has set
seed for us.

PINK MOHR (Austin '56) \$10.00
(
One of the pinkest Mohrs we as yet have.

PUFF (Craig '52) E 24" \$2.50
(Snow Flurry X Capitola)
A charming small ruffled gray-blue with a flush.

PUNCH BOWL (Craig '51) E 36" \$3.50
((Tiffany x Los Angeles) x (Sib))
X Joppa Parrot
If this has a fault - it is its profuse blooming
habit. The well branched stems are set with large
flowers of almost white which are heavily veined
and bordered with rich Burgundy.

PURISSIMOHR (Weidner '52) ML 40" \$4.00
(Wm. Mohr) X (Purissima x Easter Morn)
This seems to have all the desirable qualities. Its
substance is heavy - standards beautifully domed -
falls which are flared and ruffled. It is purest of
whites with no haft marking and a gold beard. It is
a good seed setter. Sweet fragrance. H.M. '52

RANIER VALLEY (Crandall '54) E-M 30" \$4.00
(I. hoogiana X Shining Waters)
The flowers are large and well shaped and quite
blue. Fertile both ways.

RARE PEARL (Schramm '54) E-M 30" \$5.00
(Elmoehr X Mt. Washington)
Cream with tones of pearl and buff which fade into
lovely pearl-like tones. Flaring falls. It is hardy
and sets seed well with us, even with pure Oncos
and should prove of considerable value to the breed-
er. To those who do not care for soft tones it is
not desirable.

REAL GOLD (Austin '52) M 24" \$5.00

(Golden Majesty X Capitola)
While not tall, the flowers are large and of a
beautiful golden buff color enhanced with soft
brown-gold veins. Fertile both ways.

RIPPLES (Linse '51) EM 36" \$1.50
(Ormohr X Snoqualmie)
Old lilac with an olive edging - quite interest-
ing.

ROSE MOHR (C. H. Lewis '49) M 30" \$2.00
(Ormohr X Red Valor)
Mulberry with rosy tones - little Onco-like type
in its make-up.

SAFFRON CHARM (Bebow '54) E 28" \$5.00
(stolonifera X Tall Bearded yellow)
Described as saffron-yellow stitching blending
to pale blue - with us it is more chartreuse -
but regardless - a most intriguing and beautiful
flower. Sets seed and has fertile pollen. It will
prove most useful to the breeder.

SAYYED YARMUK (White '56) E 32" \$12.00
(Unknown)
This is a prolific and unusual bi-color which is
fertile both ways. The standards are light lob-
elia-violet with dark raisin falls with a blended
buff border. A stunning color combination.

SHIRAZ (Foster '09) E 24" \$5.00
(I. iberica X I. pallida)
This is the true stock of this rare item. Standa-
rds are light blue-violet while the falls are
off white with heavy veining of deep violet.
There is a suggestion of a signal patch. Mainly
of interest to breeders and collectors.

SHORT SONG (Petersen '54) M-L 30" \$3.00
(Ormohr) X (Happy Days x Dep. Nomblot)
A smooth, wide, light lavender-blue with heavy
substance. A bit short but quite handsome.

SIDI PASHA (White '54) EM 32" \$10.00
(Unknown)
This is a tailored bloom of mustard-yellow with
pansy-purple splashes. It is exceptionally Pro-
lific and floriferous. Striking and curious.

SINAN AGHA (White '52) E 28" \$6.00
(Unknown)
Standards of pearl-gray, veins of yellow with
irregular lines of heliotrope. Falls yellow with
faint gray signal.

SLICK CHICK (Linse '54) ML 36" \$8.50
(Lady Mohr X Snoqualmie)
A pure white with a greenish midrib. The beard
is also white. Sets seed well and is quite potent
as a pollen parent.

SOME LOVE (White '38) M 24" \$1.00
(Polihymnia X Jubilee)
The beautiful oyster-white bloom has much of the
Onco appearance with its covering of minute dots
and veins of gray-purple. H.M. '39

SPLASHES (Muhrlestein '52) E-M 30" \$2.50
(Wm. Mohr x Sacramento) X (Aldura)
Mohr-type flower of violet with white splashes.

STEEL (Craig '51) M 34" \$4.00
 (Purissima X Capitola)
 This is big and tall. The Mohr-like blooms are of pale grayed-lilac with rose stippling in the throat. The texture and quality have a metallic quality.

SUEZ (Schreiner '44) M 33" \$1.00
 (Wm. Mohr X Mme. Louis Areau)
 A sturdy, easily grown Iris with rich mulberry to rosy heliotrope flowers which are veined and dotted with a deeper tone.

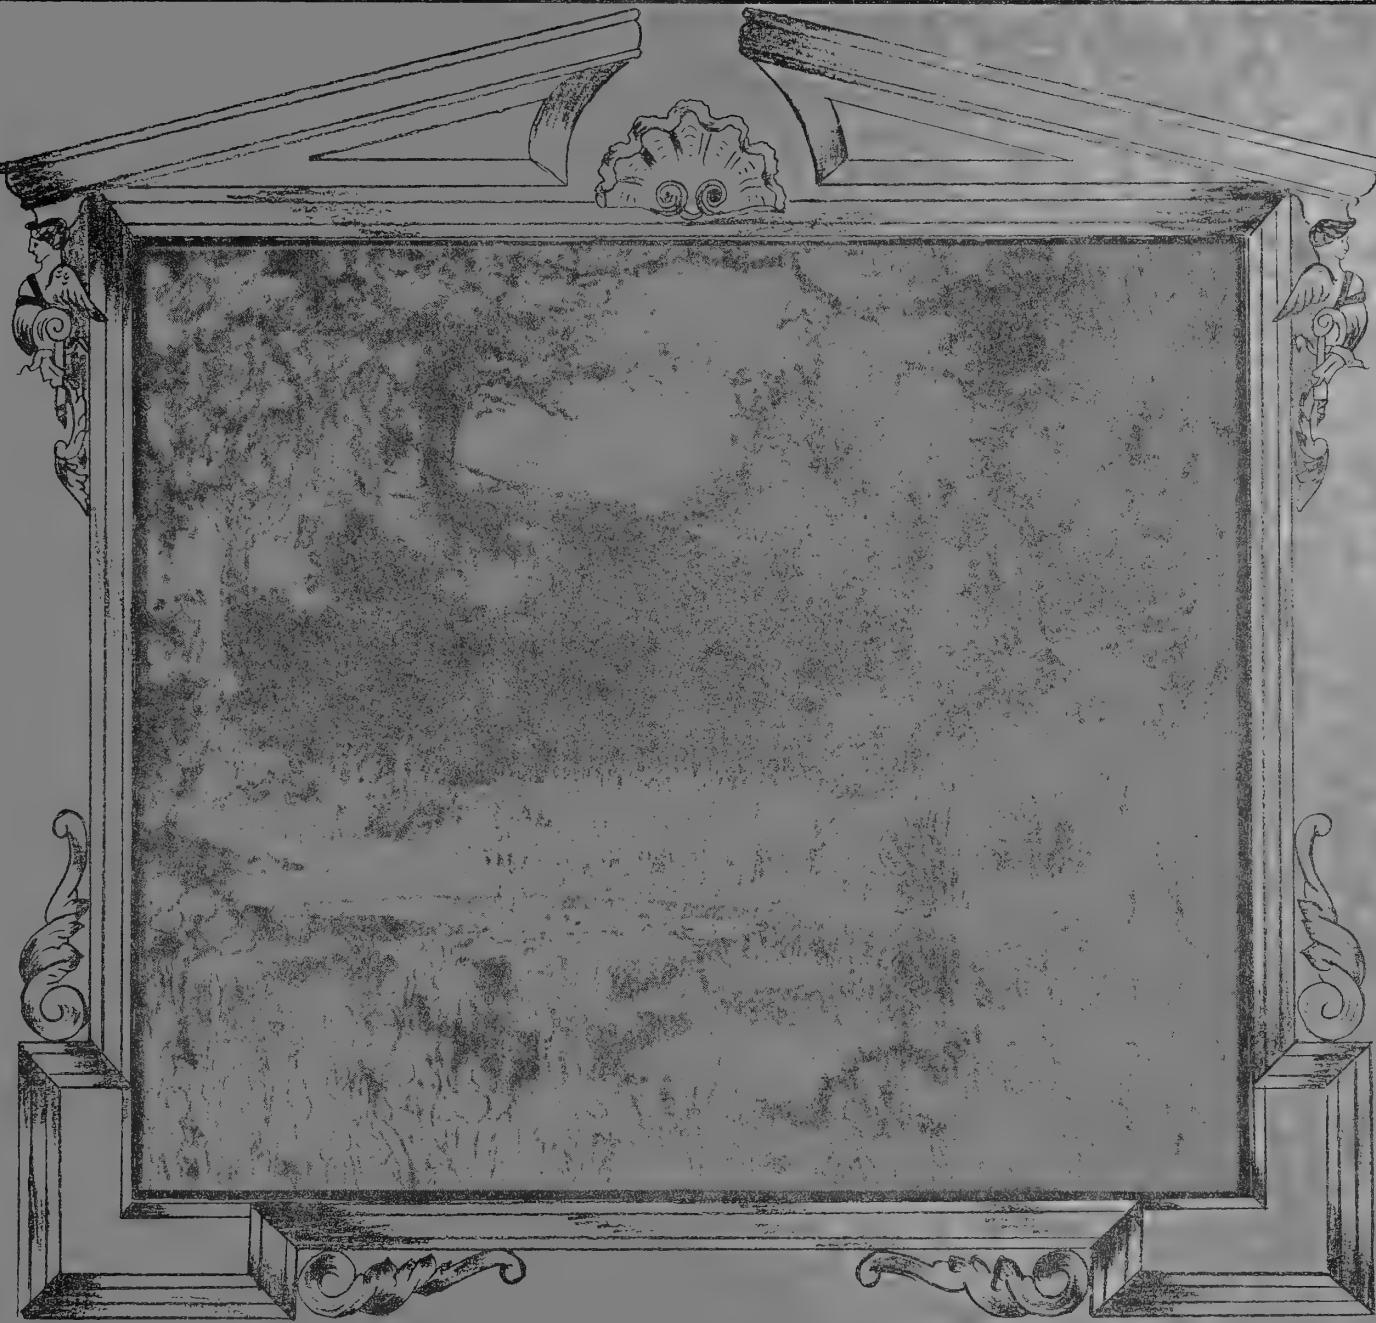

TATAI PASHA (White '55) E 30" \$10.00
 (Unknown)
 A large yellow of tailored form. The falls are penciled in russet which are further accented by the brown signal patch.

TOP HILLY (White ') E 24" \$1.00
 (Cream with deeper yellow veins.

VINAYA OF SHANKARA (White '51) E 40" \$3.50
 (Unknown)
 Large Quaker-drab flowers with primuline yellowish veining which becomes deeper at the haft.

The following varieties of ARILBREDS have been reduced to a uniform price of .75¢ each or any three for \$1.85 - 1 Dozen - alike or assorted for \$6.50 postpaid. Not subject to further collection discounts.

MOHRSON M 36"	A fertile deep red-mauve	ZWANENBURG VE 20" Odd olive-green

MRS. DOUGLAS (IDA MARY) PATTISON

This year we are privileged to dedicate our Catalog to a gracious lady well known in flower growing circles. Above we show a picture of a section of the gardens which she made famous many years ago. Here she grew the world's finest Iris and a bit later added the best daylilies available.

For many years she supplied America's elite with floral treasures. She pioneered in color Catalogs. Her publications—when they can be found—are Collector's items. Her tastes are exacting and her Iris Introductions have been few. This sense of discrimination has been well justified for at the Los Angeles Convention of the A.I.S. her WHITE PEACOCK won the coveted Cook Memorial Cup.

SHE HAS BEEN HONORED BY HAVING BOTH AN IRIS AND A DAYLILY NAMED FOR HER. THIS YEAR WE HAVE THE HONOR TO PRESENT FOR INTRODUCTION AN IRIS ADMIREDBY MANY WHICH SHE HAS NAMED GOLDEN LANCER.

INTRODUCING

THE
GOLDEN NARCE

1959

Slamova

Tall Bearded Iris

AAHME (Craig '53) M 36" \$6.00
 (Hall 44-50 X (Peach Parfait sib. x Fantasy
 A well formed bloom of delicate orchid-pink with a
 coral beard. Generally reblooms.

AL BORAK (DeForest '52) M 36" \$4.00
 (Her Grace x Prairie Sunset) X (Copper River
 This is a symphony in coppers, golds, and browns.
 The broad falls are flaring. Good parent.
 H.C. '49 - H.M. '53

ALI BABA (Lyon '52) M 38" \$3.50
 (Ranger X Cordovan)
 A large, impressive bloom which holds its color to
 a marked degree. The red is flushed with a deeper
 garnet. Sister seedling to The Mad Hatter. Fragrant

ALICE HARDING (Cayeux '33) M 36" \$.75
 (Unknown)
 A soft light yellow. Collector's item.
 Dykes Medal '33, France

AMBER GEM (Salbach '46) M 36" \$1.00
 ()
 A very large blend of chestnut and gold.

ANTIGONE (Cayeux '39) M 32" \$1.00
 (Unknown)
 Another collector's Iris in yellow.
 Dykes Medal '38, France

APRICOT SUPREME (Tompkins '51) M 40" \$2.00
 ((Spring Maid x Far West) x (SQ 73 x
 Hall 42-05)) X Pink Salmon
 A large, gleaming apricot-pink with geranium-pink
 beard. The well branched stalks display the flow-
 ers to advantage. Has pollen and sets seed even
 with some Arils. H.C. '50 - H.M. '51

APRIL SHOWERS (Craig '54) M 36" \$8.00
 ((Mariposa Mia) x (Tiffany x L. A.) x
 (Belle Brunette)) X Joseph's Mantle
 A tall, ruffled novelty in tones of yellow. The
 falls are silvery with more yellow at the margins
 and hafts. Reported a good seed setter, it has not
 proven so with us. A handsome variety.

ARABI PASHA (Anley '53) M-L 36" \$5.00
 (Mirette X Blue Ensign)
 The tailored, cornflower-blue flowers have a blue
 tipped beard on the waved, flaring falls. Is proving
 a good breeder Dykes Medal '53, England

ARGUS PHEASANT (DeForest '48) ML 36" \$1.50
 (Morena X Tobacco Road)
 A beautiful golden brown self with a matching beard
 A.M. '50 - Dykes Medal '52

AUBURN (Kleinsorge '45) ME 36" \$1.00
 (Prince of Orange X 258; Far West x Junaluska
 This vivid, fragrant flower shades from deep copper
 to a henna-brown with an overall effect of ' auburn
 The falls have a blue blaze, which adds distinction.
 H.M. '46

AUCOCISCO (Tobie '49) M 36" \$1.00
 ()
 Lovely wistaria standards, falls deep, blue-purple.
 A delightful neglecta.

AUNT AMORET (Craig '50) M 35" \$2.00
 (Advance Guard X Mitchell 0-50)
 An unusual fancy-plicata of white with a brushing
 of violet which looks orchid. C. of C. '47

BALLERINA (D. Hall '51) M 36" \$2.00
 (46-30:4407 x Cherie) X (Hit Parade)
 A flamingo-pink self with an orange beard. The
 large, ruffled blooms have good substance. Heavy
 stems are well branched. H.M. '51

BALLET DANCER (Kleinsorge '49) E-M 38" \$1.00
 (Chamois X Cascade Splendor)
 A charming buff-tan color with an underflush of
 apricot. It is large and flaring - well branched
 H.M. '49 - A.M. '52

BALL GOWN (Craig '50) M 36" \$2.50
 ()
 A handsome brown with blended bright violet tone

BANDIT (Tompkins '50) M 36" \$1.00
 (Redward X Cape Bon)
 Rich red from good breeders which should in turn
 pass quality to its youngsters.

BANG (Craig '55) M 38" \$25.00
 (Savage X (Cordovan x Molten)
 A big, rich red which is quite startling in its
 intensity. A hit at Salt Lake in '54 .

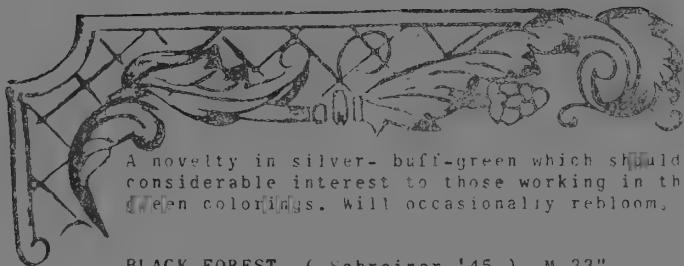

BEARDED LADY (Craig '55) M 38" \$20.00
 (Joseph's Mantle x Novelty) X (Heather -
 lands)
 A huge, bright, ruffled fancy plicata in a love-
 ly orchid tone. Has frilled horns which at times
 reach 2".

BEAU CATCHER (Craig '55) ME 36" \$7.00
 (Hall 44-05 X Cupid's Dart)
 Flamingo-pink of really tough texture. It blooms
 over a long period and again in the fall.

BELLERIVE (C. Benson '49) E-M 40" \$1.00
 (Birchbark X Gallant Leader)
 A thick petalled cream with a sculptured look. It
 won the President's Cup at the St. Louis Conven-
 tion in '52. H.M. '50

BENTON CORDELIA (Morris '53) \$15.00
 (Benton Petunia X Radiation)
 A lovely shade of pale mauve which won a Silver
 Medal in England. Dykes Medal '53, England

BENTON OLIVE (Morris '49) E-M 36" \$ 3.00
 ()

A novelty in silver-buff-green which should be of considerable interest to those working in the new open colorings. Will occasionally rebloom.

BLACK FOREST (Schreiner '45) M 33" \$1.00
(Dymia X Ethiope Queen)

A gleaming, dark blue-black, still one of the best in the low price group. It is a parent of many new 'blacks' H.M. '46 - A.M. '48

BLACK HILLS (Fay '51) M 38" \$4.00
(Black Valor x Gulf Stream) X (Black Forest)
Darker than its pollen parent and with much longer petals than most of this new color. Velvety falls with no haft markings. H.M. '51 - A.M. '54

BLACK MICHAEL (Morris '49) L 42" \$3.00
(Persephone X Blue Ensign)
A deep violet-black self of great weather resistant substance. Silver Medal '48, England

BLACK MISCHIEF (Schreiner '53) EM 36" \$3.00
(Black Forest X Cameroun)
An intense black violet which is free flowering and quite tall with good branching.

BLUE ENSIGN (Meyer '37) ML 33" \$1.00
(Magnificata X Blue Danube)
A royal blue from England with a blue beard. It is a striking flower which is also a good parent. Dykes Medal '49, England

BLUE RIM (Larsen '48) M 38" \$1.50
(Purissima x Alameda) X (Aldura)
A full, wide petaled white plicata heavily marked in clear blue. Queen of Show, Salt Lake and H.M. '49

BLUE SAPPHIRE (Schreiner '53) E-M 40" \$3.50
(Snow Flurry X China Valley)
A light silvery blue with infusions of emerald-blue. Most unusual. H.M. '54

BLUE VALLEY (K. Smith '47) M 36" \$1.00
(Lake George X Great Lakes)
Large, ruffled flowers are near 'true-blue'. H.M. '47 - A.M. '49

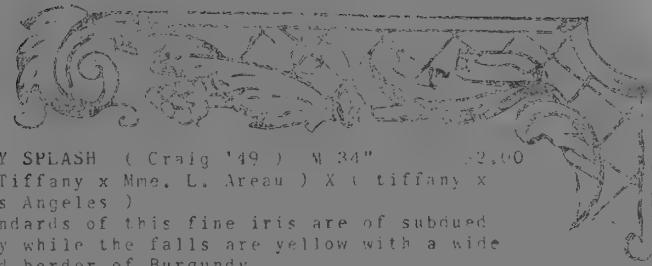

BLUE VIOLET (Craig '48) M 38" \$1.00
()
A glowing, intense, deep violet - very good.

BOLD CONTRAST (Linse '54) M-L 40" \$12.50
(Extravaganza X Rajah Brooke)
A stunning gold and red variegata.

BRILLIANT AMBER (Salbach '47) M 40" \$1.00
(From a series of seedlings)
Large amber blend. H.M. '47

BRONZE SYMPHONY (Pattison '50) M 38" \$5.00
(Copper River X Patrice)
A large, metallic copper-brown with a golden cast. It is of good form and substance. H.M. '53

BUCKTHORN BROWN (Milliken '48) E-L 36" \$1.50
(China Maid X The Missimo)
Fine brown with a blue-violet blaze. Reblooms in California and is also an excellent performer in the spring.

BURGUNDY SPLASH (Craig '49) M 34" \$2.00
(Tiffany x Mme. L. Areau) X (tiffany x Los Angeles)

The standards of this fine iris are of subdued Burgundy while the falls are yellow with a wide stippled border of Burgundy.

CAHOKIA (Gaught '48) M 42" \$1.50
(4E1: Purissima x B 31; Purissima x Santa Barbara ; K.L.B. 31 x Santa Clara)

The large, beautifully formed flowers are of rather light blue with slightly deeper veining. There is an almost turquoise flush. H.M. '49 - A.M. '51

CALIFORNIA ROSE (Salbach '47) M 36" \$1.00
(Sdrg x Marquita) X (Prairie Sunset)
Luscious blend of pinks and tan. H.M. '47

CAN-CAN (Craig '51) M 36" \$1.50
(City of Lincoln) X ((Tiffany x Los Angeles) x (Tiffany x Mme. L. Areau))
A ruffled fancy which is very showy in gold/orchid and violet. Quite unusual and novel.

CAPTAIN FROM CASTILE (DeForest '51) ML 38" \$1.00
(Vision of Mirza X Firecracker) \$2.00
A bright plicata with deep cream ground with an infusion of yellow upon which are markings of orange-red and cinnamon. H.M. '52

CARABELLA (DeForest '49) E-M 38" \$1.00
(Melitta) X (Salar x Sandia) x (Prairie Sunset)
Large, light salmon-pink which will rebloom.

CARDINAL'S ROBE (Lyell '50) M 42" \$1.00
(Indian Hills X Sable)
Deep, rich and velvety is this violet-purple self

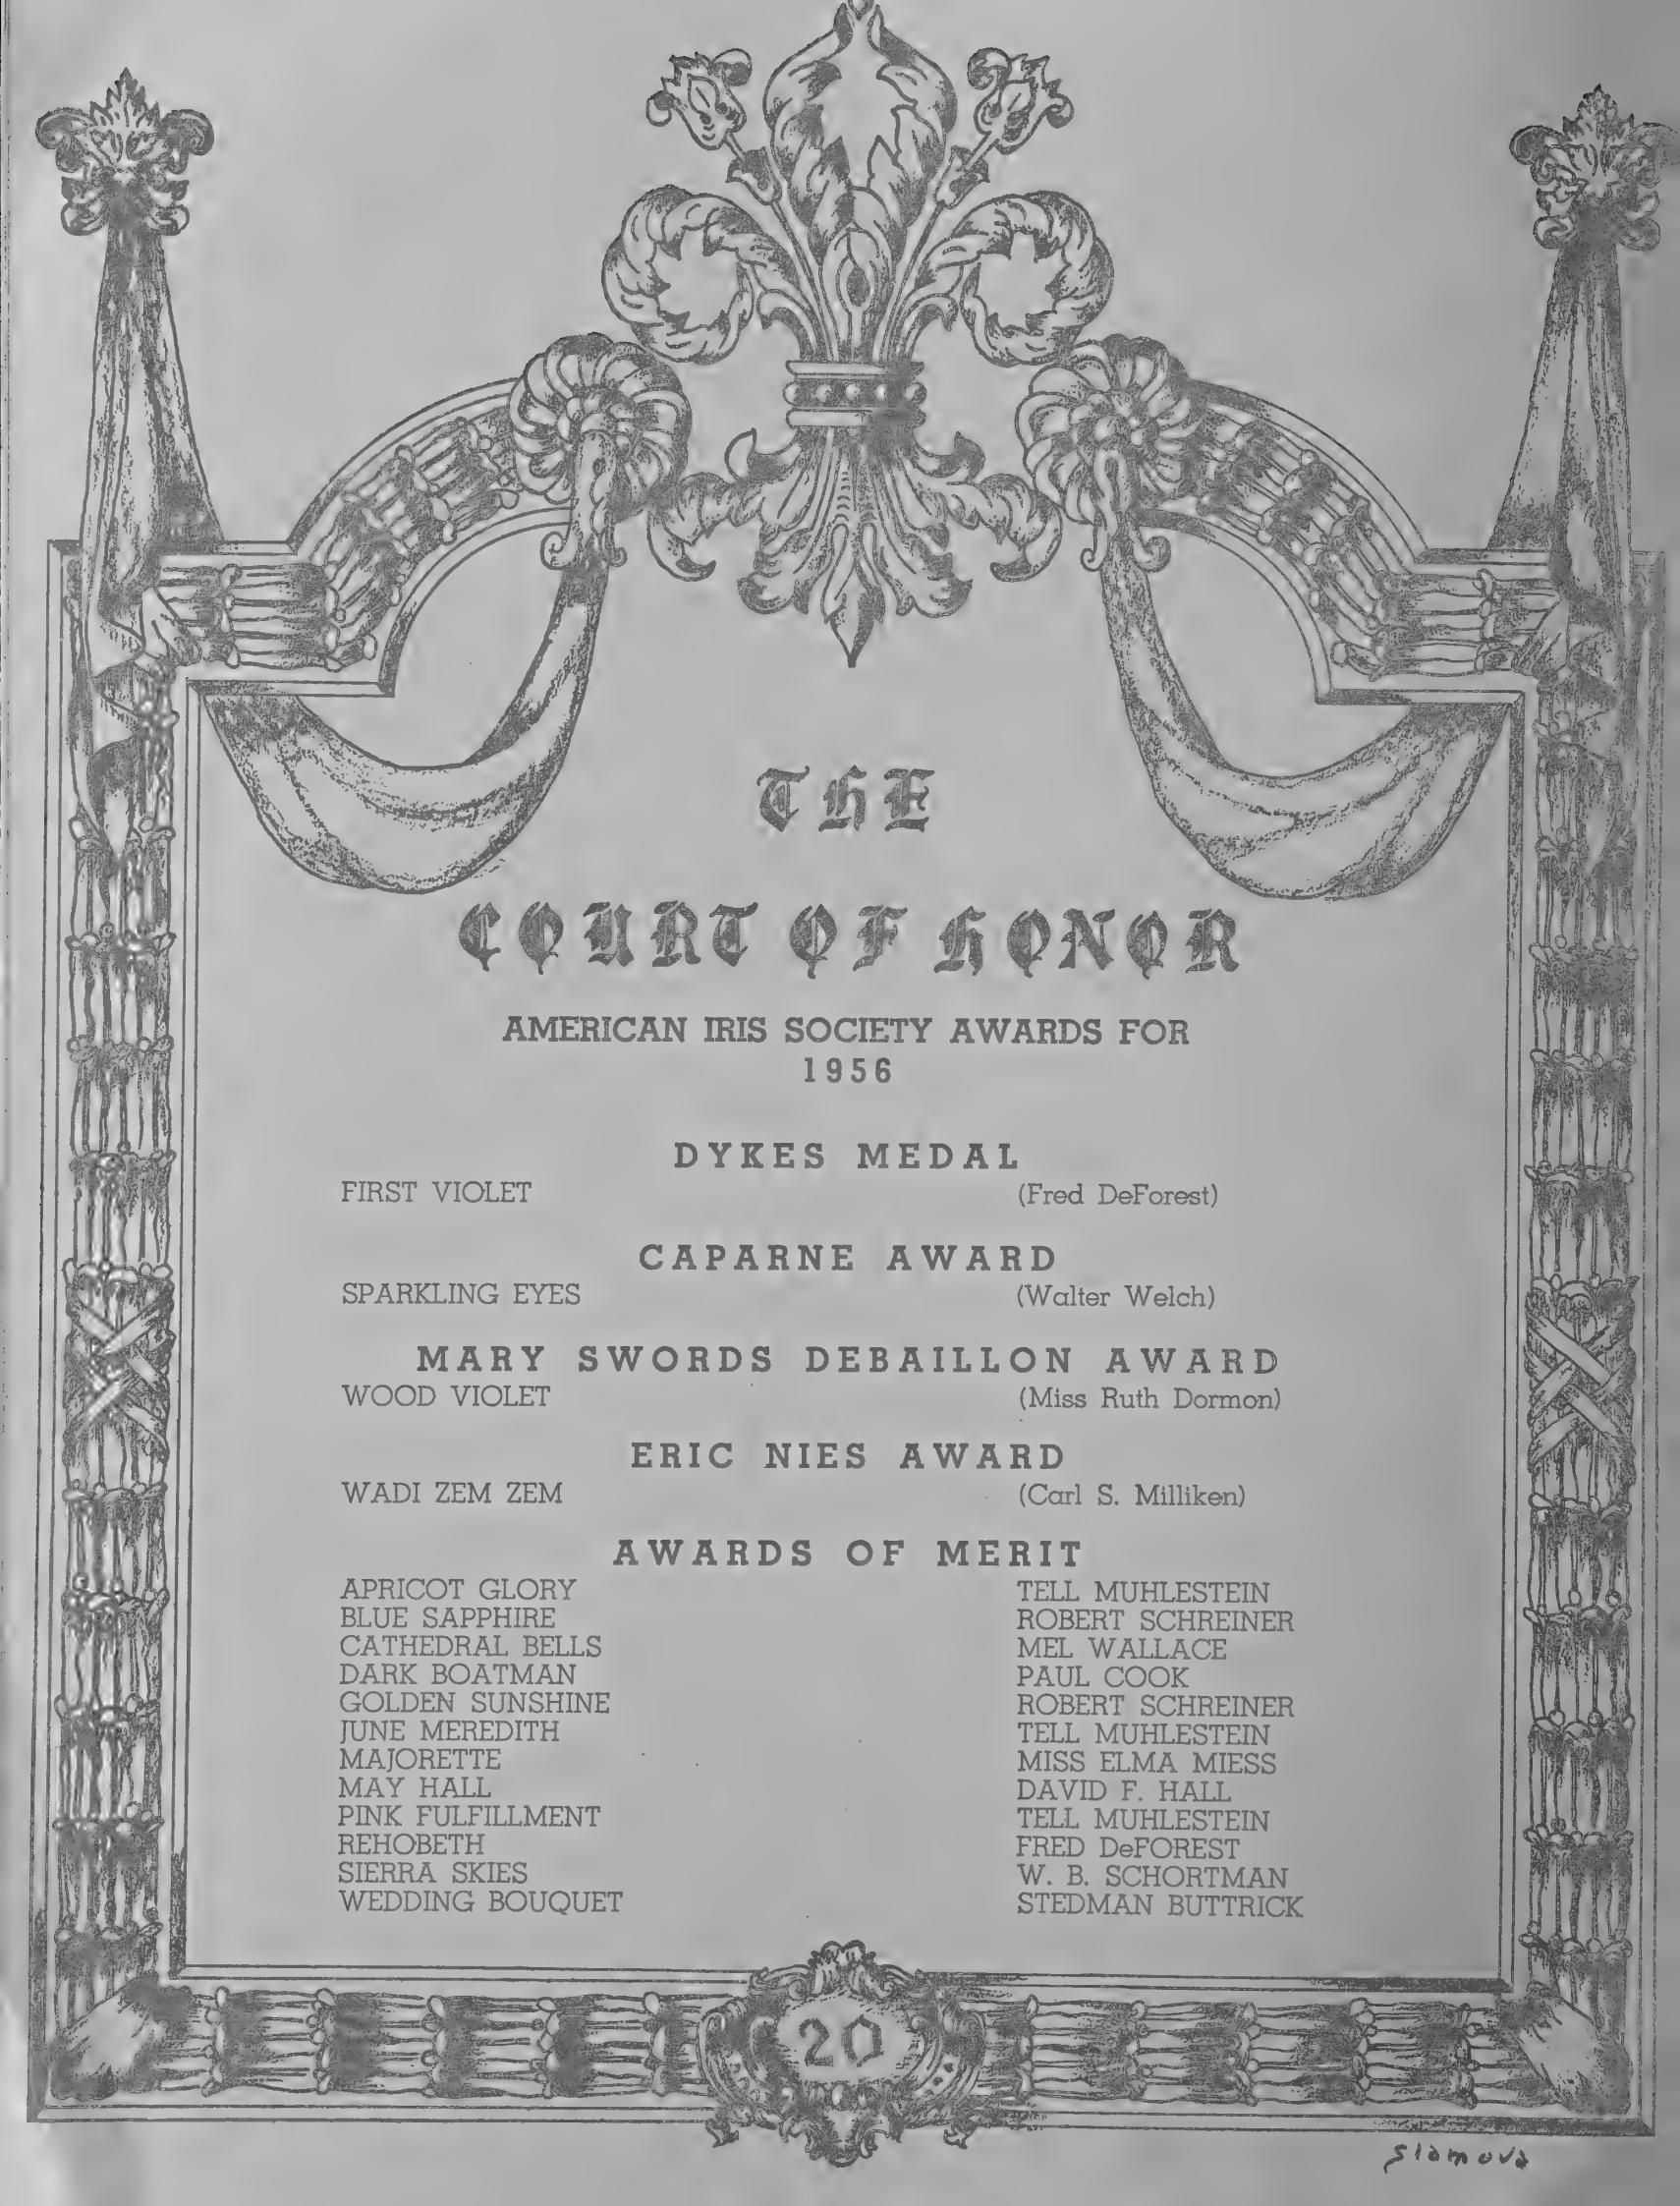

CARMELA (Schreiner '55) M 38" \$12.00
(Russet Wings) X (Midwest Gem x Chantilly)
An apricot-russet self with a coppery infusion. It is both ruffled and laced. H.M. '55

CAROLINE JANE (DeForest '51) M 36" \$5.00
(Her Grace x Tiffany) X (New Hope)
A large white and blue plicata that is of great charm. H.M. '51

CASA MORENA (DeForest '41) M 42" \$1.00
((Morning Splendor x Germaine Perthuis)
x (Alta Calif.) x (Rubeo x G. Sturtevant
X (Prairie Sunset)
A beauty of burnt Sienna and chestnut. H.M. '44 - A.M. '45

CASCADE SPLENDOR (Klein. '45) M 42" \$1.00
(Mexico x Gold Beater)
The blooms are of heavy substance with crimped petals. A smooth blend of pinks, tans and apricot. H.M. '45 - A.M. '47

CATHEDRAL BELLS (Wallace '53) M 38" \$5.00
(Hagen Blend x Overture) X (Golden Spangle x Pink Tower)
The flowers are full and wide with serrated edges. The flaring falls accentuate the light color into a definite pink. Good parent. H.M. '53

CENTURION (Wills '50) M 35" \$1.50
(Hindu Queen X Tobacco Road)
Flowers of bright copper-brown with a blended over tone of rose.

CHAMOIS (Klein. '44) M 36" \$1.00
(Mexico X Tobacco Road)
A handsome light golden tan. A.M. '48

CHANTILLY (D. Hall '45) M 36" \$1.00
(Maiden Blush X Pink Sdlg)
An orchid-pink with a lacy edging which has become a classic. Not overly large but charming. It is noteworthy for passing its laciness to seedlings.
H.M. '45 - A.M. '47

CHAR-MAIZE (Lyon '49) M 44" \$2.25
(Snow Flurry X Aztec Copper)
A runner-up for the Dykes Medal on three occasions. The large flowers have heavy substance and are beautifully ruffled. There is quite a flush of chartreuse in the yellow blooms that gives a definite green tone.
H.C. '48 - H.M. '49 - A.M.

CHERIE (D. Hall '47) EM 34" \$2.00
(Golden Eagle x 39-62) X (Fantasy)
The near pink of this flower brought great fame. Its fluted petals are enhanced by the tangerine beard.
H.M. '47 - A.M. '49 - Dykes Medal '51

CHIVALRY (Wills '44) M-L 36" \$1.00
(Missouri X Great Lakes)
An outstanding medium blue that is quite popular in America. It is ruffled and of fine proportions.
H.M. '44 - A.M. '46 - Dykes Medal '47

CIRCUS (Marx '50) L 34" \$1.00
(Marquita X Sundipt)
A novelty of yellow with bright red veining.

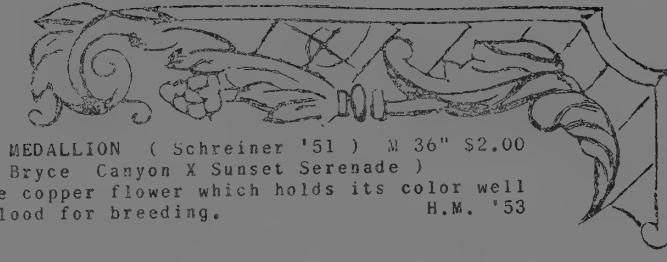

CLIFFS OF DOVER (Fay '53) M 36" \$4.00
(New Snow X Cahokia)
A flaring, ruffled pure white with great substance. The clean hafts and yellow beard enhance this lovely bloom. Vigorous grower.
H.M. '53 - A.M. '55

CLOUD CAP (DeForest '50) M 40" \$3.00
(S.Q. 72) X ((Sadler x Sandia) x (Prairie Sunset))
Here is a huge pink on tall stems that every breeder should have. Good parent.
H.M. '51 - A.M. '53

CLOUD CASTLE (Graves '44) M 37" \$1.00
(Sensation X Gloriola)
Another good parent in light blue - flaring falls.
H.M. '44 - A.M. '49

COLOR CARNIVAL (DeForest '49) M 37" \$2.50
(Spindrift) X ((Salar x Sandia) x (Prairie Sunset))
You'll either like this very much or not at all. It is quite flashy. Its pink blooms are marked with bold dashes of purple.
H.M. '50

COPPER LUSTER (Kirk '34) M 32" \$.75
(Unknown)
A large copper-gold with undertones of fawn and magenta.
H.M. '35 - A.M. '37 - Dykes Medal '38

COPPER MEDALLION (Schreiner '51) M 36" \$2.00
(Bryce Canyon X Sunset Serenade)
A large copper flower which holds its color well
Good blood for breeding. H.M. '53

CORALIE (Ayres '32) M 30" \$2.00
(Sdlg) X (Loute x mesopotamica) X
(Dauntless)
A blend of pink and red called raspberry. It is rather a collector's item.
H.M. '32 - Dykes Medal '33

COTTON CANDY (Sass '53) ML 36" \$1.50
((The Red Douglas x P. Sunset) x (Amenti x ?) x P. Sunset)) X (F. Zenor x Hall Flamingo Pink))
A pure shell-pink self of good substance. Also has a pink beard.

COURT HERALD (Stevens '52) M 38" \$2.00
((Golden Majesty x Golden Hind x Firelight)) X ((Golden Majesty x (Naranja x Red-mayne))
Handsome flower in sculptured deep gold.

CRISPETTE (Schreiner '54) M-L 36" \$7.50
(Harriet Thoreau) X (Angelus x ?) x (Matula x Sch. 8-37))
Very wide and ruffled pearly orchid blend.
H.M. '55

CUPID'S DART (Craig '53) M 36" \$6.00
(Mt. Washington x F. Zenor) X Sib.
Like a giant Mt. Washington in a glowing pink with a bittersweet beard. Blooms both spring and again in the fall.

CUSTRAD (Craig '50) M 32" \$1.00
(Rich Raiment X Mitchell 41-55)
Yellow plicata marked in cinnamon.

DARK CHOCOLATE (Murray '54) E-M 38" \$12.00
(Tobacco Road X Grand Marshall)
A large, wide, flaring brown self with a few reticulations. Should be a good breeder.
H.C. '53 - H.M. '54

DARK CONTINENT (Craig '54) EM 36" \$7.50
(Molten X Grand Canyon)
A big, smooth, dusky bloom involving plum, copper and slate with a violet blaze. Good increaser

DAUNTLESS (Connell '29) M 40" \$.75
(Cardinal X Rose Madder)
A red which appears in many a pedigree.
Dykes Medal '29.

DAWN REFLECTION (Stevens '48) M 36" \$1.50
((Tiffany) x (Miss Calif. x Sdlg: Rewa x New Dawn)) X (Mme. L. Areau)
Huge ivory plicata edged in bright rose-pink.

DEPUTE NOMBLOT (Cayeux '29) M 48" \$.75
(Francheville X Bruno)
A tall claret-crimson flushed bronze.
Dykes Medal '30, France

DESERT SONG (Fay '46) M 40" \$1.00
(Snow Flurry X Golden Eagle)

A primrose shaded cream Iris that is well proportioned and nicely ruffled. Weather resistant flowers are carried on well branched stalks
H.M. '46 - A.M. '49

DESERT TWILIGHT (Miess '52) E-M 42" \$6.00
(Sierra Snow X Wing Yellow)

A lovely blend that could be painted only with the light of a desert sunset. H.M. '52

DOLLY VARDEN (D. Hall '50) M 38" \$3.00
(Pink sedge 44-26 X Courtier)

A light pink with a salmon overlay. Good substance. H.M. '50

■■■■■ (Linse '53) E-M 38" \$4.00
(Snow Flurry X Cloud Castle)

A stunning large, ruffled white.

ECLADOR (Cayeux '32) M 36" \$.75
(Fantasia of Cayeux X Pluie d'or)

A dark yellow self. Dykes Medal '32, France

■■■■■ BEAUTY (Austin '53) ML 36" \$1.00

Standards rich creamy yellow, falls blue-lilac with a gold edge. Quite different.

EMPEROR EUGENIE (Lyon '52) M 35" \$1.50
(Char-Maize X Cordovan)

A deep Empire-yellow self with a buttercup-yellow beard. Domed standards, clean hafts, wide flaring falls and good substance. H.M. '54

ESCAPEADE (Tompkins '52) ML 36" \$3.00
(Tunisian Gold X Cascade Standard)

A lovely and different Iris. The well formed flowers of orchid have a border of gold. Good substance ruffling and a satiny finish.

EXTRAVAGANZA (Douglas '41) L 38" \$1.00
(Adios X Cortez)

The cream standards and oriental purple falls stamp this iris with individuality. H.M. '44 - A.M. '47

FAIR DAY (McKee '49) M 38" \$1.00
(Miobelle x Misty Rose (x (Moontide))

X (Moontide)
A yellow amoena with wide petals and heavy substance. Sets seed easily. H.M. '49

FALL DAYS (K. Smith '47) E 36" \$1.00
(Matula X Orange Glow)

Blended rose, copper and bronze of fall.

FANCY FEATHER (Muhlestein '52) M 36" \$3.00
(Rare Marble x 45-49A) X (Salar x
Gold Ruffles)

Novel plicata of yellow-buff - falls heavily marked in red.

FANTASY (Hall '47) EM 30" \$1.50
(40-97: Lullaby x 35-40: Dauntless x
Rameses) x (39-62: W.R. Dykes x Morocco
Rose) X (Morocco Rose)

An orchid flower with a tangerine beard. Has produced ' Cherie ' and others. H.M. '47 - A.M. '49

FIGURINE (Babson '53) M 36" \$4.00
(Snow Flurry X Unknown)

Beautifully formed flowers of lavender-buff. There is a deeper lavender flush in the falls.

FIREBAKER (Hall '43) M 38" \$1.50
(Orloff X Elsa Sass)

Brilliant yellow plicata marked red. H.M. '43

FIREDANCE (Fay '47) M 30" \$1.50

(Elsa Sass x Orloff) X (Sib)
A handsome plicata of buff with Burgundy-red markings. Not large but good. H.M. '47

FLAMING PIPE (sass '46) M 38" \$1.50
(The Red Douglas X Prairie Sunset)
Tall, well branched stalks bear large flowers of a light reddish tone infused with gold. The deeper red falls have a yellow beard.

FLYING SAUCER (Schreiner '50) ML 38" \$1.00
(From plicata parentage)
White plicata with a deep blue-violet band.

FROSTY (Craig '50) ML 45" \$1.50
(Tiffany x Los Angeles) X (Mitchell 0-50)
A beautifully ruffled plicata of clear white with a violet border.

GAY ORCHID (Muhlestein '49) EM 36" \$1.00
(Nylon X Golden Eagle)

A large, flaring orchid with tangerine beard. A good parent for orchids, pinks, and salmons.

GENE WILD (Craig '52) M-L 40" \$7.50
(Rich Raiment X Joseph's Mantle)

A stunning fancy plicata of creamy white and rose with excellent form and good stem. H.M. '54

GIBSON GIRL (Gibson '50) M 34" \$1.00
(Mme. L. Areau X Tiffany)

A lovely plicata that reblooms.

GLOWING AMBER (Craig '53) M 36" \$7.50
(Joseph's Mantle X Rich Raiment)
Golden amber overlaid with tan and sepia in a glowing, smoky manner. A good fancy. H.M. '54

GOLDEN GLEAM (Miess '51) M 36" \$3.00
(Tiffanja X Tobacco Road)

Yellow self with lines in the falls. H.M. '52

GOLDEN HIND (Chadburn '34) EM 30" \$.75
(Gold Imperial X W.R. Dykes)
Deep yellow petals with orange beard.
Dykes Medal '34, England

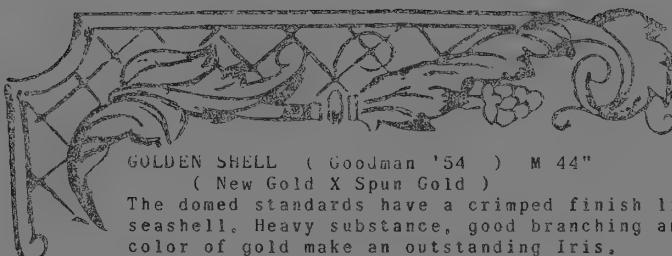

■■■■■ RUFFLES (Taylor '46) EM 38" \$1.00
(Margaret Bond X Vivaceous) EM 38"
A delightfully ruffled flower in clear yellow.
H.M. '46 - A.M. '49

GOLDEN RUSSET (Hall '46) M 38" \$1.00
(Invictus x 38-52) X (Golden Eagle)

A huge self of glowing russet. H.C. '45 - H.M. '47

■■■■■ SHADOWS (Rees '52) M 40" \$3.25
(Natividad x Happy Days) x (King Midas x
Happy Days) X (Sib)

Large warm white blooms with golden hearts.

GOLDEN SHELL (Goodman '54) M 44" \$7.50
 (New Gold X Spun Gold)
 The domed standards have a crimped finish like a seashell. Heavy substance, good branching and the color of gold make an outstanding Iris.

GOLDEN SYMPHONY (Horton '44) VL 36" \$1.00
 (Plurabelle X Rameses)
 The latest iris to bloom. It has yellow standards and lavender-blue falls.

GOLD SOVEREIGN (Whiting '49) M 38" \$1.00
 (Ola Kala X Rocket)
 The flowers are so gold as to border on the orange side. A sure eye catcher. H.M. '50 - A.M. '53

GOOD NEWS (Klein. '46) M 34" \$.75
 (Mexico X Tobacco Road)
 This flaring, ruffled beauty has a soft golden tone of tan that is quite pleasing. An undertone of almost mustard is also apparent. H.M. '47

G. P. BAKER (Perry '30) M 40" \$.75
 (Unknown)
 Considered one of the really fine yellows at the time of introduction. Dykes Medal '30, England

GRECIAN ROSE (Heller '45) M 42" \$.75
 ()
 A huge cream with a faint suffusion of green.

GREEN CHANCE (Murray '54) E-M 36" \$3.00
 (Appointee X Green Pastures)
 A chartreuse bi-color. Flower is large but lacks substance but should be good in a green breeding program.

GREEN GLOW (Muhlestein '49) EM 36" \$1.00
 (Snow Flurry) X (G.Serouge x Mt. Cloud)
 Large blooms on the 'green' side of chartreuse. H.C. '48

GREEN HAT (Murray '55) M-L 38" \$6.00
 (Green Pastures x Melitta) X (Appointee)
 Good for green breeding - standards are chartreuse while the falls are overlaid with a reddish brown tone leaving a border of the color of the standards

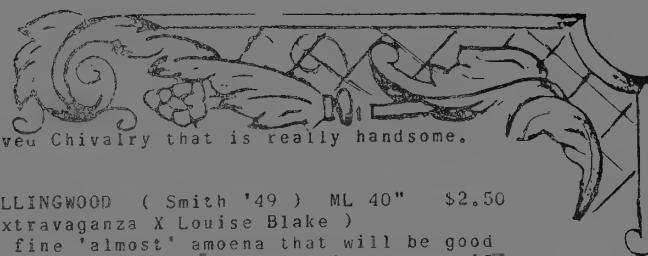

GREEN PASTURES (Heller '47) E-M 48" \$1.00
 (Old Ironsides X Oregon Sunshine)
 Another Iris useful in the green breeding program. There is a blue tipped beard for accent.

GUDRUN (Dykes '30) EM 38" \$.75
 (Unknown)
 A warm white, gold beard. Dykes Medal '31, England

HAPPY BIRTHDAY (Hall '52) M 36" \$3.00
 (Melody Lane X Heritage)
 A flamingo pink - deeper than Ballerina. Beard is tangerine. Good substance with crimped edges. H.M. '52 - A.M. '54

HAZEL REED (Craig '50) M 40" \$4.00
 (Prairie Sunset X Sultan's Robe)
 Henna-brown with golden undertones make this a handsome blend. Should give fine reds, browns, blends.

HEADLANDS (Craig '50) M 40" \$2.50
 (Acropolis x Destiny) X (Great Lakes)

An improved Chivalry that is really handsome.

HELEN COLLINGWOOD (Smith '49) ML 40" \$2.50
 (Extravaganza X Louise Blake)
 An extra fine 'almost' amoena that will be good for breeding in this class. H.M. '50 - A.M. '52

HELEN McGREGOR (Garves '46) EM 36" \$1.00
 (Purissima X Cloud Castle)
 A handsome and much praised bloom clear blue with but little lavender.
 H.M. '46 - A.M. '48 - Dykes Medal '49

HERITAGE (Hall '49) M 36" \$1.50
 (Tally-Ho X Courtier)
 This flamingo-pink is a trifle deeper than Cherie. Excellent substance and has semi-flaring falls that are ruffled. Tangerine beard.

HIGH TOR (Fielding '50) M 40" \$2.00
 (Snow Flurry X Azure Skies)
 This is a big flower on 'high' stalks. The cherry-blue falls are a bit deeper than the standard. H.C. '51 - H.M. '52

HIGH TIME (Hall '50) M 36" \$1.00
 (42-07: Golden Eagle x 39-62) X (Premier Peach)
 This lovely golden apricot is considered among Mr. Hall's best introductions. H.M. '50

HONOR BRIGHT (DeForest '51) M 36" \$1.50
 (Tiffanja X Firecracker)
 Yellow ground plicata with white patch in falls. H.M. '51

HONOR GUEST (Dozier '53) M 38" \$1.00
 (Amigo X Wabash)
 Looks like both its famous parents.

JANE PHILLIPS (Graves '50) M 36" \$1.00
 (Helen McGregor X Sdrg)
 A lovely light blue with flaring, slightly fluted falls. H.M. '50 - A.M. '52

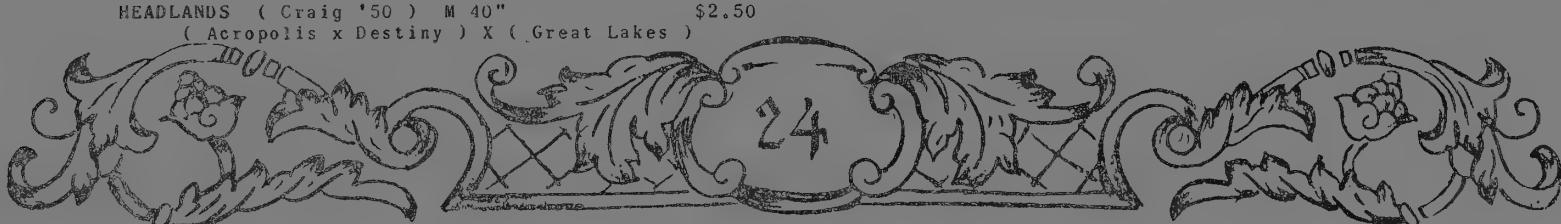

JEAN CAYEUX (Cayeux '31) M 36" \$.75
 (Phryne) X (Brubo x Evolution)
 A beautiful Havana-brown with tones of gold. Dykes Medal '31, France

JOSEPH'S MANTLE (Craig '48) M 36" \$1.50
 (Involving many sdgs. See Catalog 1956)
 A handsome fancy plicata of buff-gold with red-brown striations and white brushings.

JOYANCE (Dykes '29) ML 32" \$.75
 (Unknown)
 Huge flowers of cream-ivory. Good substance. Dykes Medal '29, England

JUNE BRIDE (Hall '52) M 30" \$3.00
 (Two Hall pink sdgs.)
 A flaring, deep apricot-pink of large size. Unusually tangerine beard. H.M. '52

KEENE VALLEY (K. Smith '49) E-M 40" \$1.50
 (Lake George X Great Lakes)
 A deep, smooth blue, close to 'true blue'. H.M. '50

LADY ALBRIGHT (Muhlestein '50) M-L 36" \$3.00
(Veisha X Bronzed Copper)
A brilliant, rich bl^lnd- deep copper standards with
undertones of brown- falls almost rose-lavender edge
ed with copper give great carrying power.
C.O.C. '40 - H.M. '50

LADY LOUISE (Graves '46) ML 44" \$1.00
(Snow Carnival X Katherine Larmon)
Standards of 'Colonial Buff' white falls with edg-
ing of buff. H.M. '47

LAS FLORISTAS (Combs '55) E-L 40" \$10.00
(Joseph's Mantle X Orelia)
Yellow buff base with veinings and stylizations of
deep red. Good substance and increases rapidly.

LAVANESQUE (Schreiner '53) M 36" \$5.00
(Dreamcastle) X ((Angelus x ?) x (Matula
x 8-37))
A lovely bloom of clear smooth lavender.

LIMELIGHT (Hall '52) ML 35" \$3.00
(Sunray X Hall Pink # 46-42)
A blend of canary and green yellow with an under-
tone of blush-peach. The well formed flowers have a
deep lace edging. H.M. '54

LINDORA (H. Sass '50) M 38" \$1.50
(Of many seedlings)
The striking flowers have yellow standards and
falls of white with yellow border.

LOTHARIO (Schreiner '42) ML 38" \$1.00
(Mme. M. Lassaillye X Winnishiek)
Light lavender-blue standards and rich blue-purple
falls with no veining. H.M. '45

LYNN LANGFORD (Hall '46 M 36" \$1.00
(Unknown)
The orchid-pink flowers have a yellow flush at the
haft. H.M. '46 - A.M. '50

MABEL CHADBURN (Chadburn '41) M 34" \$1.50
(Purissima X Gold Imperial) X (G. Hind)
A large yellow. Dykes Medal '41, England

MARY GEDDES (Stahl Washington '31) M 36" \$.75
(Unknown)
Standards salmon-orange, falls Pompeian-red.
H.M. '30 - A.M. '33 - Dykes Medal '36

MASKED BALL (Buss '49) E 38" \$1.00
(Gypsy Baron X ?)
The standards are heavily marked in deep blue -pur-
ple, the falls are almost white with a small bor-
der to match the standards. H.M. '52

MAYTIME MELODY

MME. LOUIS AREAU (Cayeux '34) M 37" \$.75
(Unknown)
Silver white heavily dotted and netted in rose-hel-
iotrope. A.M. '39 - Dykes Medal '34, France

MME MAURICE LASSAILLEY (Cayeux '35) M 37" \$.75
(Unknown)

Sky-blue standards and velvety purple falls.
Dykes Medal '35, France

WINTER CARNIVAL M 38"	Ruffled pure white	
ZEBULON E 24"		Big purple oncobred

THE SPURIAS

We have grown several varieties of the SPURIA IRIS for some years and have now decided to list them for those fanciers who wish to add this handsome type to accent their gardens. The SPURIAS make handsome clumps with tall stalks and leaves and are well worth the slight additional water and fertilizer which they require.

Listed first you will find two originations of Dr. Philip G. Corliss of Somerton, Arizona. We feel honored by Dr. Corliss in having been chosen to introduce these two splendid offerings. The Doctor is well known for his outstanding photographic work with flowers as well as his endeavors with DAYLILIES. His fine book on the latter flower will be found listed in the DAYLILY SECTION of this Catalog. It is a MUST for the serious worker with this 'PERENNIAL SUPREME'.

DOROTHY WAREN SKJOLD (Corliss '56) EE 54" \$ 25.00
 (Golden Agate X Two Opals)

The earliest Spuria to bloom. Magnificent arching form, erect standards of cinnamon with smoky slate-brown-gray tones. The falls are brown with orange veins and a light yellow pencil edging, beautifully ruffled. Well branched.

GOLDEN BRANCH (Corliss '56) E 38" \$ 25.00
 (Larksong X Unknown)

The first available branched Spuria. Has two 8" branches and terminal, each with a pair of buds of light chrome yellow self.

BRONZSPUR (Nies '41) 48" \$.75
 Done in sepia-brown, gold and yellow.

COLOR GUARD () 36" \$2.50
 Wide ruffled light blue with yellow patch in the falls.

FIFTH SYMPHONY (Nies '42) 35" \$.75
 Buff-yellow heavily sketched all over with golden brown.

GOLDEN AGATE (Nies '44) 42" \$1.00
 Brown with gold undertones and a dark band edging the falls.

GOLDEN GIRL (Combs '56) 54" \$4.00
 This beauty has the size and flare of WHITE HERON - the stamens and beauty of WADI ZEM ZEM. These two famous varieties are the parents of this very fine, large ruffled creamy yellow.

I. AUREA \$1.00
 A golden yellow species which was collected in Kashmir by Lindly in 1847. Not large but worthwhile.

LARK SONG (Nies '46) 36" \$3.50
 A cream and yellow bitone of great distinction. The petals are wide and ruffed - making a flower of great beauty.

MICHIGAN STATE (Nies '42) 42" \$1.00
 Of BRONZSPUR breeding - buff-gold with a loose type veining which gives an all over effect of pure bronze.

RUSSET FLAME (Nies '44) 36" \$.75
 Deep yellow bordered in brown which is bronzy in tone.

SAUGATUCK (Nies '41) 36" \$.75
 One of the best known of the yellow, lavender combinations. Standards are of lavender while the falls are yellow.

WADI ZEM ZEM (Milliken '42) 48" \$2.50
 Wide petalled cream-yellow. Won the first ERIC NIES AWARD in 1956.

WHITE HERON (Milliken '48) 54" \$2.50
 Very large waxy white with a yellow throat.

DAYLILIES

We have considerably enlarged our Daylily offerings for 1957. A new introduction, which has been named ELMHERST CANARY, as well as former presentations of Elmherst Gardens are listed in addition to many originations of TOM CRAIG.

DAYLILIES are the Perennial Supreme - the garden plant of all virtues and no faults. They defy weather hardships that are often fatal to other plants. Care, food and water pay dividends in increased bloom and finer color - but upon occasion, they can live and even prosper to an unusual degree upon neglect and drought.

The color palette is gradually being filled in until now we have almost every color represented in an infinity of shades, tones and tints with the exception of blue and pure white. If you do not already have these fine plants in your garden, may we urge you to add a few, for we know that you will be most pleasantly surprised at the lovely effects to be achieved with this easiest of all perennials.

Prices are for standard divisions which are shipped in Plastic Bags to ensure their safe arrival in a garden-fresh condition. Shipments are made throughout the year - weather conditions permitting.

ADORABLE JOEY (Graham '55) De 28" \$1.50
Showy rose-mauve. Twisty petals with a suffusion of sage-green and a dark violet eye zone.

AMHERST (Wheeler '46) M Ev 32" \$3.00
The large, beautifully formed flowers are of light purple with a wide milk-white midrib. A MUST for hybridizers.
H.M. '50 - A.M. '52

ANNIE OAKLEY (Wheeler) M Ev 34" \$7.50
The wide segments of soft buff open flat. The sepal is heavily dusted in red, giving a reverse bi-color. The "bull's eye" is red.

ANNIS VICTORIA RUSSELL (Russell '42) VE Ev \$1.00
The large blooms are of light yellow.

APACHE GOLD (Davis) Ev 36" \$1.00
A trumpet shaped bloom of deep golden orange.

ARLA (Wheeler) Ev 36" \$3.00
A striking, large, light canary-yellow with overlapping segments.
H.M. '54

ATHLONE (Russell '42) M Ev 40" \$1.00
Deep rose petals are backed by canary-yellow sepals
The dark eye zone lends accent.
A.M. '52

ATTACK (Craig '55) Ev 30" \$2.50
This big, long blooming flower is of pompeian to cardinal-red. Prolificates.

BABY DEAR (Graham '55) De 24" \$1.50
Baby ribbon-pink with a rose eye zone. Small, dainty blooms in profusion. Formerly BABY TEARS

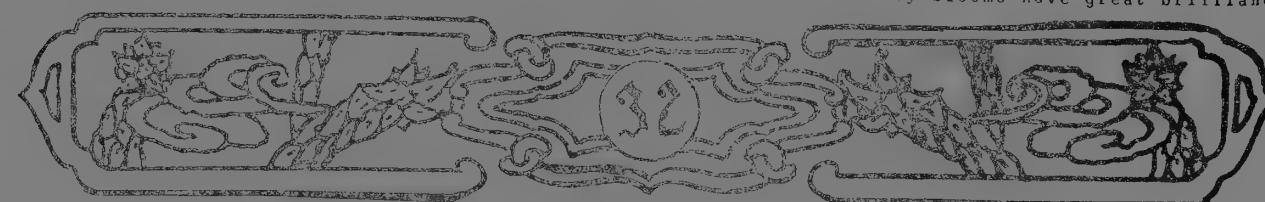

BACCHUS (Wheeler '50) Ev 36" \$1.00
The raspberry-violet blooms are produced almost continuously. A fine variety - interesting for

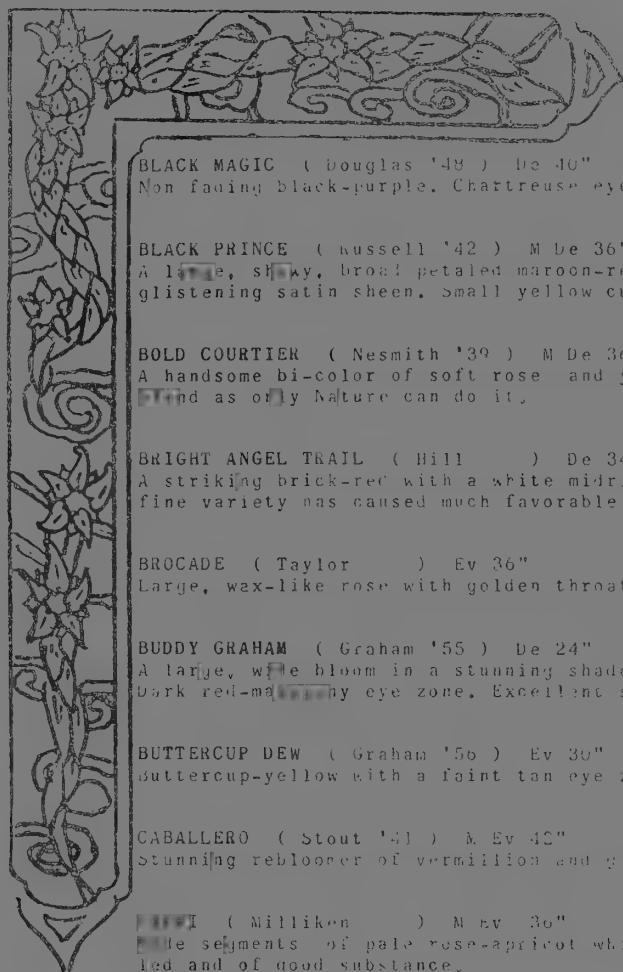

BESS VESTAL (House '49) Ev 36" \$2.00
Considered one of the best of the reds. Six inch blooms of good texture.
H.M. '51

BETSY B (Vestal) Ev 36" \$1.50
One of the near true reds. Handsome flower, showy, brilliant and velvety.
H.M. '52

BLACK FALCON (Nesmith '41) M De 36" \$1.00
A huge, ruffled mahogany-black enhanced by the small orange cup.

BLACK HILLS (Russell '47) De 36" \$1.00
One of the blackest reds which stands the sun well. The twisty blooms have great brilliance.

Non-facing black-purple. Chartreuse eye cup.

BLACK PRINCE (Russell '42) M De 36" \$1.00
A large, shiny, broad petaled maroon-red with a glistening satin sheen. Small yellow cup.

BOLD COURTIER (Nesmith '39) M De 36" \$1.00
A handsome bi-color of soft rose and yellow that stands as only Nature can do it. A.M. '50

BRIGHT ANGEL TRAIL (Hill) De 34" \$2.00
A striking brick-red with a white midrib. This fine variety has caused much favorable comment.

BROCADE (Taylor) Ev 36" \$2.00
Large, wax-like rose with golden throat H.M. '53

BUDDY GRAHAM (Graham '55) De 24" \$10.00
A large, white bloom in a stunning shade of brown. A dark red-mahogany eye zone. Excellent substance.

BUTTERCUP DEW (Graham '50) Ev 30" \$4.00
Buttercup-yellow with a faint tan eye zone. shiny.

CABALLERO (Stout '41) M Ev 40" \$1.00
Stunning rebloomer of vermillion and golden yellow,

CHARIOT (Milliken) M Ev 36" \$3.00
The segments of pale rose-apricot which are ruffled and of good substance.

CARVED IVORY (Nesmith) De 30" \$6.00
This lily shaped bloom seems literally carved 'Carved Ivory'. It has heavy substance, is floriferous and an evening bloomer. H.M. '52

CATHAY (Stout) Ev 36" \$1.50
A very fine brilliant scarlet.

CATHEDRAL TOWERS (Milliken) Ev 34" re \$3.00
Soft, rich yellow, brown eye. H.M. '51 - A.M. '54

CELESTINE (Davis) Ev 36" \$4.00
A huge lemon - wonderful in warmer areas.

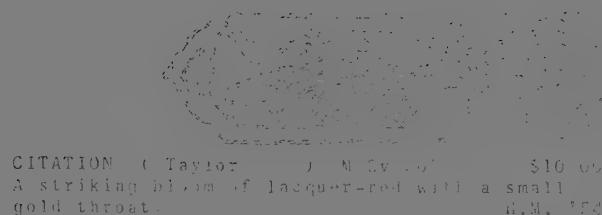

CELLINI (Wheeler '49) L-M Ev 36" \$2.00
An evening bloomer of soft sulphur-yellow with overlapping segments that give an amaryllis-like effect. Named for the Florentine Goldsmith of the fabulous Renaissance period. H.M. '52 - A.M. '55

CERISE (Wheeler) Ev 40" re \$1.50
beautiful rose-crimson or garnet form. H.M. '50 - H.M. '53

CHALLENGER (Stout) Ev 36" \$1.00
An intense clear rose. Very desirable. H.M. '53

CHANTICLEER (Wheeler) Ev 36" \$1.50
A bright, crimson-scarlet that is very good.

CIBOLA (Hill '50) M Ev 36" \$2.50
Of a golden orange color which seems to have an all over frosted effect. It has good form and heavy substance. H.M. '53

CITATION (Taylor) M Ev 36" \$10.00
A striking bloom of lacquered-red with a small gold throat. H.M. '52

COLONIAL DAME (Milliken '46) M De 36" \$2.50
A long blooming beauty which has a band of rose tan on the buff-apricot segments. Bright yellow throat. H.M. '51 - A.M. '54

CONCORDIA (Wheeler '54) M Ev 36" \$3.00
A purple self with a tint of blue. The wide petals are creped in effect.

CONVOY (Sasse) De 36" \$5.00
A fine variety in deep purple-red.

COPPER COLONEL (Sasse '48) M De 36" \$1.50
A rose-copper blend with large recurving blooms of good substance. H.M. '51 - A.M. '51

QUESITE (Milliken) Ev 36" \$3.00
A Huge ruffled bi-color of yellow, dusky rose. Lovely! H.M. '55

CRADLE SONG (Milliken) Ev 36" \$3.00
This is an immense 'NIGHTLILY' of gold which has many improvements over its famous parent. H.M. '55

CRIMSON GLORY (Carpenter '52) De 36" \$3.00
An outstanding pure crimson-red that is moderately ruffled.

CRIMSON PIRATE (Sasse) Ev 36" \$2.50
A fine carmine-red with an oxblood eye. It has good branching. Very good. H.M. '55

DAILY DOUBLE (Douglas) Ev 36" \$1.00
Mikado orange flowers with a large percentage coming double.

DARK HORIZON (Christensen) De 36" \$6.00
Deep glowing purple with a shimmering black overlay.

DARK KNIGHT (Craig '55) De 36" \$2.50
Large, dark mahogany-black which blooms for an extended period.

DARK VICTORY (Taylor) M Ev 36" \$3.00
A dark raisin colored bloom with a contrasting canary-yellow throat.

DEBUTANTE (Nesmith '41) M De 36" \$1.50
A pale buff-pink - extended blooming season.

DEW CURLS (Graham '56) Ev 36" \$10.00
A lovely pink with light green throat and a rosy eye zone. The petals are lacy and twisted.

DIADEM (Wheeler) M Ev 36" \$5.00
Soft salmon-pink with darker halo. Yellow throat.

DIXIE PRIDE (Siegel) M De 36" \$2.00
An outstanding glowing orange with rose veining and a red eye zone.

DOCTOR CORLISS (Davis) Ev 36" \$3.00
A handsome flower of bright salmon with red eye zone. Good substance and one we like very much.

DUNA (Taylor) Ev 36" \$3.50
A medium red bloom with a golden yellow throat.

EASTER MORN (Wheeler '43) Ev 36" \$2.50
Broad petalled buff-yellow with a rose-brown halo. Very fine. A.M. '51

ELMHERST (Graham '55) Ev 36" \$10.00
Cream colored blooms with a glowing copper suffusion and sprinkled with gold dust. Stays open into the second day. Has leather-like substance, though seemly velvety to the touch.

EL MORENO (Buck) Ev 36" \$2.00
A striking blackish tone with a boldly contrasting cream midrib. Useful in dark breeding.

ELVA ROBERTS (Graham '55) Ev 27" \$2.00
Light apricot self with crinkled, wavy petals. It usually reblooms in September.

EMPERESS (Wheeler) Ev 36" \$2.00
A very striking flower of purple and yellow.

EVELYN CLAAR (Kraus '51) M De 30" \$4.00
Glistening orchid-pink. One of the finest. H.M. '52 - A.M. '55

EVENING GLORY (Sass) De 36" \$1.50
Beautiful apricot blooms. Tall lacy stems.

FIDDLE HEAD (Wheeler) Ev 36" \$4.00
An interesting mahogany flower with a great percentage of blooms having three petaloids.

FLAMBOYANT (Douglas '47) M Ev 30" \$3.00
An outstanding yellow with a bright Indian-red halo and slightly fluted, recurved segments. H.M. '50 - A.M. '53

FOND CARESS (Milliken) EM Ev 36" re \$2.00
A lily shaped bloom of cream-yellow sprinkled with star dust.

FREDERICK L. GRAHAM (Graham '56) Ev 36" \$10.00
A large, fragrant, triangular bloom that is quite different. A rich cream with pink-peach suffusion and a light green throat.

GARDEN LADY (Norton '42) M Ev 36" \$1.50
Large pink and tan bicolor with heavy substance.

GARNET ROBE (Milliken '48) Ev 36" \$1.50
A glowing garnet-red which is enhanced by the green yellow cup. H.M. '50 - A.M. '53

 A huge sunshiny yellow with 8" blooms.

MING TOY (Wheeler '47) EM Ev 18" \$1.25
 Fire red dwarf which blooms over a long season.

MISTY ROSE (Hill) De 36" \$5.00
 The blooms of soft misty rose-pink have very fine substance.

MOONLIGHT TRYST (Craig '55) Ev 24" \$20.00
 A very broad and lightly ruffled, pale lemon 'night lily' of top quality.

NARANJA (Wheeler '48) Ev 30" \$2.00
 One of the finest lilies in orange. The large ruffled blooms are sunproof. Superb foliage. H.M. '50 - A.M. '53 - Stout Medal '56

NIGHT BELLS (Graham '56) Ev 36" \$10.00
 A fragrant night bloomer of bright glittering gold. The large, bell shaped blooms are of quite heavy substance.

NUHN (Wheeler '50) E Ev 34" \$2.00
 The deep violet-magenta blooms are fade resist - ance. The orange throat has a deep toned halo. Of medium size but most distinctive.

OLYMPUS (Wheeler '52) M Ev 42" \$3.50
 The huge light orange, orchid formed blooms, have a glistening peach effect.

OMITA (Davis '50) M Ev 24" \$1.00
 An almost 'everblooming' lily of rose-red.

OPINO (Buck) Ev 36" \$2.00
 Intense, deep yellow bloom of quality.

OUR FLYING STAR (Graham '56) Ev 48" \$1.00
A bi-color of ox-blood red and cream with a bluish sheen over the entire bloom. Stands wind and rain.

PAINTED LADY (Russell '42) \$1.00
A large ruffled flower of bright yellow with an overlay of cinnamon-brown. A.M. '50 - Stout Medal '51

PAPRIKA (Wheeler) De 36" \$3.50
The well formed, sun resistant flowers are of a vivid crimson with a green throat.

PEACHY TOWERS (Graham '56) EV 42" \$3.00
A luscious peaches and cream combination with wax-like substance.

PINK BOWKNOT (Taylor '48) M Ev 42" \$3.50
This is a lovely salmon-pink with an ivory midrib. The triangular blooms are ruffled and of heavy substance. Fine garden subject. A.M. '55

PINK DAMASK (Stevens '51) M S Ev 36" \$5.00
A medium sized rose-pink, slightly recurved and sun-proof. H.M. '54

PINK DREAM (Childs '51) M De 36" \$4.00
Here is a true pink that is charming and has such substance as to keep it fresh looking the entire day.

PINK GLAZE (Craig '55) Ev 36" \$5.00
A medium sized flower of bright pink with a chartreuse throat which reblooms.

PINK SPODE (Sasse) De 30" \$3.50
Rose self with darker veining. Yellow throat.

PLATINUM BLONDE (Wheeler) Ev 36" \$15.00
A bloom of the palest yellow that is an exciting approach to the white goal.

PLUM MIST (Claar '48) EM De 40" re \$2.50
A misty plum-purple with green-yellow throat. H.M. '52

PORT ROYAL (Lester) ML De 38" \$2.50
A fine variety of brilliant 'bittersweet'.

POTENTATE (Nesmith '43) M De 42" \$2.50
A luminous, smooth satiny purple. A.M. '50 - Stout Medal '52

PRIMA DONNA (Taylor '46) M Ev 36" \$5.00
A broad petaloid bloom of heavy substance and a soft, pale, creamy yellow color, flushed pink. H.M. '50 - A.M. '52 - Stout Medal '54

PSYCHE (Wheeler '50) M Ev 36" \$3.00
A light yellow flower of most distinctive form. The wide petals are frilled and recurved.

PURPLE HAZE (Russell) M Ev 30" \$1.00
Wide, ruffled petals of wine with darker veining.

PURPLE MIST (Russell) M De 30" \$2.00
A wide, ruffled bloom with a satin-like finish to the orchid-plum color.

QUOTE ME (Russell '48) M Ev 36" \$1.00
A deep yellow-orange giant with wide, ruffled petals and slightly recurved sepals.

RAVEN (Wheeler '51) E Ev 36" \$3.00
A rich, deep wine shade that has an overlay of near black. The chartreuse throat adds contrast.

REAL GOLD (Craig '56) ML Ev 36" \$6.00
The greatest advantage of this handsome gold-orange, is its resistance to sun and heat. Should be good breeding material.

RED DARCY (House) E 36" \$6.00
The orange-red petals of this beauty are outlined in frilly orange and have a matching midrib. Stands full sun with little fading.

RED PERFECTION (Russell) M De 36" \$1.00
A slightly ruffled orange-red that blooms well.

RENAISSANCE (Wheeler) Ev 36" \$10.00
This has an unusual and beautiful form which inspires the name. The rich gold color lends even more to the effect that it might be the creation of some Florentine Goldsmith.

ROSE OF TEXAS (Russell) M De 36" \$1.00
Recurving blooms of glowing rose-red.

ROSE RHYTHM (Nesmith) E De 36" \$7.00
A variety not often offered. Rose with deeper banding that is quite lovely.

ROYAL RUBY (Nesmith '42) M De 36" \$1.00
A smoothly finished crimson bloom. A.M. '50

SALADIN (Stevens '47) M De 38" \$1.00
A clear, satiny cherry-red with no yellow in its makeup.

SALMON SHEEN (Taylor '50) M Ev 48" \$3.00
A large flower of heavy substance. Overall Effect of pink a bit more orange than salmon. H.M. '53

SCARLET LETTER (Hill) De 36" \$2.00
Scarlet to tomato-red blooms. Rarely found.

SCARLET SUNSET (Wheeler '47) M Ev 30" \$1.50
A medium sized glowing scarlet. H.M. '50 - A.M. '53

SCORPIO (Wheeler '52) M Ev 48" \$2.50
An extremely large 'spider' type with long cut segments. The light buff-orange tone has a dusting of fulvous-red.

SIQUIN (Wheeler) EM Ev 30" re \$1.50
Soft buff-yellow with garnet-red eye zone.

SHOW GIRL (Wheeler '51) E Ev 40" re \$3.00
A lovely orchid-pink with reflexed petals. This is excellent for a shady spot. H.M. '51

SKYLARK (Russell '47) E De 42" \$1.00
Thick substanced lemon-yellow that remains open
long after sundown. H.M. '52

SPANISH MAIN (Russell) M De 36" \$1.00
A lovely shell-pink with a rosy eye zone.

STAR JEWELS (Graham '56) Ev 36" \$5.00
Wide flowered peach-tan with a rose-red eye zone

STARS OVER DALLAS (Russell '47) M Ev 48" \$2.00
A pale yellow with an almost green cast which is
more pronounced in the throat.

STEPHEN FOSTER (Traub '48) M Ev 36" \$1.00
A bright glowing red - quite sun resistant.

SU-LIN (Nesmith '41) M de 36" \$1.00
Orchid-pink petals with cream sepals. A.M. '52

SWAN (Watkins '42) M Ev 30" \$2.00
A supreme large orange. Heavy substance.

SWEET SALLIE (Graham '55) Ev 36" \$1.50
A velvety cream bloom with a suffusion of pink-peach over the entire surface. Delightfully scented

TAMARA (Milliken '48) M Ev 36" \$1.50
A rich bi-color of rosy red and light yellow.

TALLY-HO (Nesmith) M De 36" \$2.00
A fine flower of deep crimson.

THE DOCTOR (Claar '50) L De 26" \$1.50
A large, wide open, recurved bloom which has
drawn much praise. We first saw its brilliant
vermillion-scarlet beauty in Mrs. Pattison's
garden and it was a MUST HAVE on sight.

TIARA (Wheeler '52) M Ev 36" \$2.50
The frilly, wide open petals are of a bronze
russet with a dusting of gold. Vigorous.

TINY STAR (Graham '55) Ev 24" \$1.00
One of the smaller sizes which have so many
uses in the border front. A tan self with a dark
brown eye zone. More of these types are needed.

TOMOKA (Wheeler) Ev 36" \$1.00
Here is another variety not often found. It was
another of the MUST HAVES when we first saw it
at Tom Craig's. It is a rich coffee color and
large. The broad segments have heavy substance.

VALIANT (Cooke '43) De 36" \$2.00
A glowing orange of most impressive appearance.

WIDE EYED (Craig '54) Ev 36" \$1.00
The flower is large and of clear yellow with a
most startling wide eye of portwine. It has an
extended blooming season.

WONDER (Craig '54) Ev 24" \$7.50
While this is a low growing plant, the flowers
are of quite good size. They are of a lovely
creamy yellow with an unusually large eye of
rose-brown. It is quite floriferous and is another
example of the extended blooming types.

The Library of all good gardeners should by all means contain the superb book on DAYLILIES.

HEMEROCALLIS: THE PERENNIAL SUPREME

by

* * * * * DR. PHILIP G. CORLISS * * * *

This handsome cloth-bound volume, profusely illustrated, is THE definitive reference book on DAYLILIES and is indeed a collector's item of superb typesetting. DeLuxe first edition, limited to 1000 copies, each book numbered, registered and autographed.

Postpaid \$10.00

Order direct from the Author, Dr. Philip G. Corliss, P. O. Box 68, Somerton, Ariz.

BULBOUS IRIS

ALATA (JUNO) \$1.00
The Scorpion Iris. A fine winter flowering species suitable for pot culture. The flowers are light blue.

BUCHARICA (JUNO) April \$1.00
A robust growing species which likes a place in the rock garden with a sunny outlook. The flowers are cream-white with a yellow signal and mid rib.

GRAEBERIANA (JUNO) 12" \$1.00
A graceful species with methyl-blue flowers.

MAGNIFICA (JUNO) \$1.00
This bears up to 7 flowers in the leaf axils. It is white delicately tinged lavender-blue. There is an orange signal.

ORCHIOIDES (JUNO) \$5.00
Golden yellow blooms.

SINDJARENSIS (JUNO) March \$2.00
Soft blue flowers borne in the leaf axils.

WAELSIND (JUNO) \$1.00
(warleyensis X sindjarensis)
Standards deep blue, falls yellow, edged blue.

WILLMOTTIANA ALBA (JUNO) \$6.00
Snow-white flowers from the leaf axils. Probably a hybrid rather than a species.

WINOGRADOWII \$10.00
A great rarity from the Caucasus which has often had references but not previously offered in so far as we can ascertain. It is supposedly not difficult to grow. Has large, soft creamy yellow flowers.

DANFORDIAE (RET) FEB - MAR Doz. \$1.00
Bright yellow with very small standards.

HISTEIOCIDES ENJOY (Ret) Apr \$1.00
Large, bright blue flowers, falls spotted white. Good for pot culture or the rock garden.

RETICULATA CANTAB (RET) Doz. \$1.50
Pale blue flowers with an orange blotch.

RETICULATA HARMONY (RET) Ea. \$1.00
Sky blue with yellow central ridge.

RETICULATA HERCULES (Ret) Doz. \$1.00
Intense reddish violet with bronzy shade and an orange signal.

RETICULATA JOYCE (RET) Ea. \$.75
Sky blue with orange central ridge.

RETICULATA J. S. BIJL (RET) Doz. \$1.50
Reddish purple, sweetly scented blooms.

RETICULATA ROYAL BLUE (RET) Ea. \$1.00
Dark royal blue, broad falls with yellow signal.

RETICULATA VIOLET BEAUTY (RET) Ea. \$1.50
Standards soft violet, falls much deeper.

RETICULATA WENTWORTH (RET) Ea. \$.75
A great improvement in this type. Glowing purple blue of a lovely shade.

VARTANII ALBA (RET) Ea. \$.50
A winter flowering type from Israel, IN WHITE.

MISCELLANEOUS IRIS

We have many species and little known hybrids in our Collection which are in limited quantities. If you are searching for some particular item, we should be happy to correspond with you about it. We have decided to Catalog the following rare plants even though they are in short supply.

SPECULATRIX 12" M.

This is perhaps the rarest and certainly the most tropical of the genus. It was discovered many years ago growing in a small area on a mountain near Hong Kong. We must warn you that it is small-- the flowers are not spectacular and it is of course tender. Strictly for the collector and hybridizer. The blooms (Evansia Section) are lavender-blue.

MARGOT HOLMES (Perry '27) M 15" \$2.50 (chrysographes X douglasiana)

This is the only non-bearded Iris to ever win the Dykes Medal and has been the most elusive to acquire. We are particularly happy to be able to

offer it for the benefit of the many collectors who have needed it to complete their Dykes Medal winners. Fall delivery only. Tender.

QUEEN'S GRACE (stevens '56) M 24" \$10.00 (Wattii X tectorum)

This we imported from New Zealand at the same time we acquired 'speculatrix'. It is a lovely hybrid that is of course tender in the more rigorous climates, although it will grow well in pots and increase rapidly.

The large, lavender-blue flowers are produced in profusion and resemble tectorum.

AMARYLLIS

These are second and third generation crosses involving the famous Dutch Hybrids which we were quite fortunate in acquiring. We are listing mixed colors only for this year although there are pink, rose, peach, apricot, coral and red selfs as well as stripes. All are California grown and are of course tender in the East. Shipped July to November

	1	3	12
Large Flowering Size	\$.75	\$2.00	\$7.00
Smaller size	\$.50	\$1.25	\$4.50

BELLADONNA HYBRIDS

These are hybrids involving Amaryllis Belladonna (also known as Brunsvigia Rosea) and the multi-flora types of Brunsvigia. They are a development of Robert Kessler who is a well known collector of plants and an authority in many horticultural circles and fields. There is, incidentally, a lovely lily species which bears the name KESSLERI in his honor.

The lily-like blooms have a wide range of coloring from white through the pastels of peach, apricot, pink and some with a lavender cast. The many flowered umbels hang from strong stems up to three feet tall. Offered in mixed colors only.

	1	3	12
LARGE Flowering Size	\$.50	\$1.35	\$5.00

CRINODONNA MEMORIA CORSI

A hybrid of Amaryllis Belladonna and a white form of Crinum Moorei by Dr. Attilio Raggionieri of Florence Italy, and named by him in honor of the Marquis Corsi Salviati of the same city.

There are from 8 to 12 flowers of rose-pink, (variable) in an umbel which comes into bloom in midsummer. Evergreen - tender in the East.

	1	3
Large Flowering Size	\$1.25	\$3.00

NERINE

A striking flower that cuts well and is much used in arrangements. A two foot stem is topped by a six inch umbel of lovely coral-pink lily-like blooms with feathery anthers. Plant after July in California. They increase rapidly. Used as subjects for pots in the East.

	1	3	12
Large Flowering Size	\$.60	\$1.50	\$5.00

SPREKELIAS (Jacobean Lily - Aztec Lily)

A bold, handsome bloom that closely resembles an orchid in form. It is an intense shade of crimson with a sprinkling of gold dust. A single blossom on a stem up to 15". Tender in the East.

	1	3	12
Large Flowering Size	\$.60	\$1.50	\$5.00

TERMS OF SALE

Payment with order, please; by Check, Draft or Money Order. Postage prepaid in the U. S. on all orders of \$5.00 or over. On orders under \$5.00 please include .50c to help defray cost of packing and mailing.

CALIFORNIA CUSTOMERS PLEASE INCLUDE 3% SALES TAX

SHIPPING DATES

Our shipping season will start July 1st; orders will be filled in rotation—however we will try to observe any special date specified.

Our Iris Rhizomes are shipped under State Inspected Labels. We make no substitutions unless requested; however, if you care to list some alternates we will use it as a guide in including gift rhizomes.

While we make every effort to see that stock is true to name and of the best quality, we readily admit being only human and therefore subject to error. If a mistake should occur in filling your order we ask that you report it and we will make whatever adjustment will satisfy YOU. We put no time limit on this adjustment—for sometimes it may be the second season before an error is detected.

Cultural Notes Included With Every Order.
